Better care for your patients
from exam to procedure

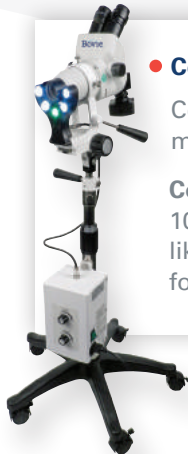

The Next Generation of Clarity and Comfort in Colposcopy Exams

The Colpo-Master™ line offers superior, 3D, stereoscopic views with excellent clarity. Designed for maximum efficiency from exam to procedure, this suite of colposcopes features optimized ergonomics and a broad range of magnification.

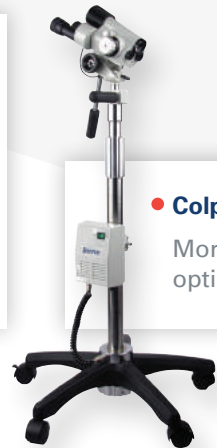

• **Colpo-Master™ I**
Easy access to surgical site through swing-arm suspension design

• **Colpo-Master™ II**
Compact center-post mount-style for exams

Colpo-Master™ I and II have 10x more magnification than like colposcopes, allowing for enhanced visuals.

• **Colpo-Master™ III**
More economical option for exams

Colpo-Master™ I Zoom Suspension Arm Colposcopes & Colpo-Master™ II Center-Post Mount Colposcopes

- 3D stereoscopic viewing
- Zoom magnification range 4-27x with 20x eyepiece
- S-video and digital camera options available for connecting EMR platforms or monitor displays (trinocular head required)
- Dual light-intensity controls (green and white) for increased visibility of tissue variances
- Field of view ranges from 58.5mm at 4x to 8.5mm at 27x
- Binocular or camera-ready trinocular heads with 298mm working distance
- Independently adjust focus with dual diopter to eliminate eye strain

Colpo-Master™ III Triple Magnification Colposcopes

Capitalize on the versatility of a center-post-style design with 3-point magnification and semiautomatic focus.

- 3D stereoscopic viewing
- Three magnification settings: 3.75x, 7.5x, and 15x
- Adjust magnification and maintain focus through knob rotation
- Flip-down green filter built into head of unit
- Lightweight and easy to maneuver
- Dual diopter, independent, eye-focusing controls
- 300mm working distance

Procedure Safety and Reliability Your Practice Demands

Integrate the Bovie Specialist | PRO energy-based system with smoke evacuation to perform procedures like LLETZ/LEEP, wart removal, and other gynecologic procedures, allowing additional revenue streams by treating patients in-office.

Specialist | PRO High Energy-based Generator

Provide operating room-level technology to your patients in your office with this easy-to-use energy-based unit.

- Five modalities with up to 120 watts of power for a variety of tissue effects
- Monopolar and bipolar capabilities
- Compatible with most industry-standard accessories
- Opportunity for additional revenue streams
- 4-year warranty

Smoke Shark™ II Smoke Evacuator

Protect yourself, your staff, and patients from airborne pathogens and contaminants. Effectively removes hazardous smoke and particles from the operative site, reducing the risk of surgical site infection (SSI).

- 35-hour, long-life filter can reduce procedure costs by over 30%*
- Improves visibility of operative site
- Immediate evacuation of contaminated smoke particles
- Operates in conjunction with optional Bovie Remove Activation Switch for maximum filter life and surgical efficiencies
- Compatible with most energy-based generators

Disposable LLETZ/LEEP Loop

Achieve precise control during biopsies and other excisional procedures.

- 100% safety-tested insulation
- Molded, ribbed safety grip
- 21 sizes available

Disposable Ball Electrodes

Designed to control bleeding, fulgurate, and treat diseased tissue safely and efficiently.

- Safety grip insulators
- Available in 5mm and 3mm balls
- Manufactured to the highest standards

Energy-based Mobile Stand

At your fingertips: keep surgical equipment organized and within reach at all times.

- Adjustable height extender
- Instrument tray for instant access
- Bottom tray to store smoke evacuation equipment

Imagine working with more comfort, precision, confidence, and safety.
