RF Energy Exposure and Product Safety Guidelines and Instructions

See more detailed proper usage instructions, warnings and cautions in the Regulatory Compliance and Product Safety Guide.

To ensure a comfortable audio level and compliance with RF energy exposure limits, do not hold against the ear or alongside the head.

Use only in front of the face or with Motorola Solutions approved audio accessories and carry cases to ensure compliance with RF energy exposure limits.

Attaching Single Charger
And Surveillance Microphone

Slim Design

Micro USB

Connect the Micro USB Charging Cable to charge your battery

Accessory Connector

To attach your audio accessory, lift up the flap of the Audio jack cover. Align the indicators on both the connector and housing, then push until it fits in properly.

Rotate connector counter clockwise to lock.
To unlock, rotate until the indicators on both the connector and the housing are aligned. Pull out the connector gently to disconnect from radio.
