

AMOLN is a Swedish perfumery and personal care brand founded in Malmö, Sweden. *Moln* is the Swedish word for cloud. The mythological and natural mystery of clouds inspires our signature products in monochromatic blue. Ethically sourced, all Amoln personal care product lines combine our passions for fragrances, craftsmanship and intimate memories with raw materials of the highest quality and contemporary Scandinavian design. Amoln products are handcrafted by legendary artisans with a century-long history and know-how without cruelty to animals, human beings and our environment.

Founded in 2019 by Jonas and Aice Bergholm. Amoln continuously takes handmade, highest-quality ingredients and thoughtful approach to creating new additions to niche perfumery and lifestyle industry, with a fine-tuned touch from the world leading producers and the fourth generation of a world class French candle and wax master who has worked with top prestigious brands for more than a century.

Since 2022, Amoln has created the perfume and provided scented candles to the Swedish Royal Palaces (De Kungliga Slotten).

At Amoln studio in Malmö, Sweden, our products adhere to sustainability track where each ingredient is hand-chosen and formulated to its highest possibility. The careful perfumery process has taken more than a year to develop, and the aforementioned wax master has spent the same amount of time to codify the most suitable wax for each of Amoln fragrance.

"Amoln Blue" is the brand's unique signature color created by our co-founders through their dedicate hand-mix process. Inspired by the cloud and Scandinavian traditional architecture, Amoln Blue captures the essence of tranquility and serenity.

Our logo and other key visuals are designed by artist O Teerawat from Hèrmes Masan & Masan fame and a Scandinavian design team. The logo features an outer frame that resembles a cloud, symbolizing the boundless possibilities that lie ahead. Within this frame, the silhouette of two individuals is portrayed to represent the brand's two founders whose journeys and shared passion form the foundation of Amoln.

The notion of thoroughness in materials and craftsmanship is the essence for each individual candle. Each scent has its own story inspired by treasured memories and histories from childhood, romance, and stolen moments.

Amoln's subtle yet detailed artwork, packaging and monochromatic candle design are crafted by designers from Copenhagen, Oslo and Bangkok.

THE MONOCHROMATIC BLUE COLLECTION

The design is inspired by Scandinavian simplicity, modernity, yet understated elegance. The vessel is hand-painted with Amoln's signature hand-blended matte blue colour and matches the blue candle wax. Amoln's logo is embossed on the candle labels for a tactile experience.

The French perfumers and candle wax masters have spent at least a year formulating and codifying the most suitable and sustainable blends for each of Amoln's subtle candle scents. (Available in size 270 g.)

1945

A love letter from a grateful daughter to her doting father. A scent capturing the happiness from a blend of fresh herbs, the sensuality of Italian bergamot, oriental roses, orange blossom, wild jasmine, and ultimately accumulate in warm undertones of sandalwood and cedarwood.

For one of Amoln's founders, 1945 strikes close to the heart as it was the year her loving father was born. Culled from a lifelong bond and cherished memories of unconditional love, Amoln's 1945 emulates a unique scent of a father who never wears commercial perfume. His particular and inimitable personal scent is developed through his daily activities from squeezing fresh juice for the kids in the morning, picking wildflowers from the tiny garden, wood carpentry in the garage to cooking with Asian spices and plants. 1945's liveliness energizes and brings positive memories to you.

“Kabinett” encaptures the essence of Amoln perfumery--responsible materialism, hybridity and complexity--through Amber wood, Patchouli, Nordic rhubarb, Oud, Italian bergamot, raspberry, and pink rose. Experience our studio with Kabinett.

COLD ROSE

Roses usually blossom in summertime, soaking up the sun to diffuse sweet, intoxicating aroma. There are, however, extraordinary roses that withstand harsh winter, and proudly bloom despite such inconducive conditions for growth.

The kind of strength witnessed from these unlikely winter roses exhibit the same vigor possessed by mothers everywhere. Demanding and all consuming, motherhood calls for unwavering commitments to prevail under all conditions and terrains just like winter roses. Amoln's Cold Rose translates the gentle resistance and mental force into a tender yet sturdy scent through a mixture of rose petals, green note roses, violets, jasmine and musk.

FIGMALION

A Cyprus king and an irascible professor bring their “creations” to life and fall in love in the process.

For Amoln, fig, a common fruit native to the Mediterranean and western Asia, goes under the same process as King Pygmalion and Professor Henry Higgins. Carefully thought through and experimentally crafted to highlight figs in a new light, Figmalion remains true to the wonders of figs, but with added helpers for further accentuations, pushing boundaries of what figs can accomplish.

Fig tree leaves and grapefruits are figured as top notes while melting figs, tomato leaves and rhubarbs come in as a heart of the matter. Tonko beans, sandalwood and cedar wood finish off the transformation that prompt a newfound love.

OLD TJIKKO

Being the oldest does not equate being the biggest or the strongest.

Inspired by Old Tjikko, the world’s oldest tree located on Sweden’s Fulufjället Mountain, and its grit to withstand times and tides against all odds, Amoln’s *Old Tjikko* celebrates such inner strength and natural wonderment through this gentle, comforting yet poised and affirming woody scent.

Old Tjikko renders assurance via incense and smoked wood as top notes while iris, cinnamon, cloves and violet at heart serve as fresh reminders. Wood, leather, Tonka beans, oak moss, cedar woods and musk strengthen the foundation as base notes.
