The Best Foot Creams Will Fix Your Rough, Stinky Feet

A good foot cream will keep everything inside your socks smooth, fungus-free, and—most importantly—not smelly.

In terms of everyday, standard, post-shower, pre-bedtime hydration, this is the foot cream of the crop. While it's less targeted than the rest of the list, it will help you maintain soft, fresh feet day in, day out. It has a soothing, healing formula, carefully combining shea butter, beeswax, chamomile, calendula, vitamin E, and two essential oils (avocado and sunflower seed). It's scented with clover and cucumber, so that your feet buzz happily as you tuck them into bed—and so they feel pillow soft come morning.
