### Mayron's Goods Clover & Cucumber Foot Cream

**Best for Your Feet:** Fewer things bring me as much joy as lathering on Mayron's foot cream, then encasing each foot in a wool sock and hopping into bed for a great night's sleep. The cream hydrates with a shea butter and beeswax formula, but it's the add-ons that carry it the extra mile: Calendula, chamomile, rosemary, and oils of avocado and sunflower give you the tingles while the scent of cucumber and clover permeates the air. It absorbs quickly, so that you maximize the benefits well before you transfer the product to your apartment floor (or the wool socks).
