

# BRAND PROFILES

## BEHIND THE BRAND

Shiva Rose uses all natural ingredients, some that are harvested locally, and some that herald from my favorite sacred places. Kukui nut oil from the island of Kauai, to California grown jojoba oil, all ingredients that bring nourishing love to the skin. The amber in the Venus Amber Body oil is a natural amber tree resin, and the cardamom in the Nectar Body Oil is reminiscent of the cardamom pods I remember as a child growing up in Persia. There are no chemicals or toxic preservatives used in the hand made products. Everything is made in a high vibrational studio with mantras, crystals, and flower essences to ensure the purity and quality of the line.

SHIVA ROSE
