Wonder Valley Oil Cleanser

Along with *not* using deodorant to conquer B.O., washing your face with olive oil is up there on the list of counterintuitive grooming moves. But people have been using olive oil to keep their skin looking radiant going back to the ancient Greeks. Don't grab the Trader Joe's stuff you fry eggs with, though—this oil cleanser by Joshua Tree's Wonder Valley will unlock the best skin you've ever had.

Compared to a water-based facial cleanser, which is like an astringent power washer for your skin, Wonder Valley's formula is like a soothing bubble bath. Made with the brand's famously herbaceous (and perpetually sold out) olive oil, it breaks down makeup and impurities while leaving your skin's microbiome intact, which in turn helps your skin stay deeply moisturized and as glowingly healthy as a Greek god's.
