RIO DE JANEIRO

# BRAZIL'S MOST TRADITIONAL PERFUMERY

Founded in 1870 in Rio de Janeiro, Granado is the most traditional perfumery and pharmaceutical company in Brazil. By manipulating extracts of plants and herbs grown on the farm of its founder, the Portuguese José Antonio Coxito Granado, the brand quickly conquered illustrious customers such as the Emperor D. Pedro II, soon receiving the title of the *Official Pharmacy of the Brazilian Imperial Family*.

# A NEW ERA

Throughout the years, the tradition of quality products with plant origins and proven effectiveness remained, and after three generations in the hands of the Granado family, Englishman Christopher Freeman now chairs the company, leading it through a process of constant modernization while staying true to its traditions.

# JARDIM REAL

Jardim Real exalts the freshness of flowers and transports us to the exuberant parks and gardens of Rio de Janeiro in the 19th century. A union between the citric and effervescent naturalness of the notes of bergamot and mandarin, with the romantic delicacy of the flowers, highlighting the orange blossom as the protagonist of the creation. The classic woody background of sandalwood and patchouli add the final touch of sophistication and versatility.
