

# Q&A

## RIDGEFX™ Nail Surface Enhancer

PRODUCT

### QUESTION

1. What is **RIDGEFX™** Nail Surface Enhancer?

### ANSWER

**RIDGEFX™** is a nail surface enhancer and ridge filler that perfects the appearance of the natural nail. **RIDGEFX™** smooths out ridges, masks imperfections and is designed to be used prior to **CND™ VINYLUX™** Long Wear Polish.

FORMULA

2. How does **RIDGEFX™** Nail Surface Enhancer work?

Optic diffusers visually enhance the natural color of the nail surface while **OPTIFIL TECHNOLOGY™** with microspheres fill in surface imperfections, refine the nail texture and provide a smooth foundation for polish application.

3. How does **RIDGEFX™** Nail Surface Enhancer prevent staining on the natural nail?

**RIDGEFX™** acts as a barrier between the nail polish color and the natural nail, to prevent staining.

POSITIONING

4. What specific type of nails is **RIDGEFX™** Nail Surface Enhancer designed to work best on?

**RIDGEFX™** is designed specifically for use on clients with surface imperfections such as ridges, indentations or discoloration.

PRICING

5. How many applications are there per bottle?

There are approximately 40 applications per 0.5 fl oz/15mL bottle.

FEATURES AND BENEFITS

6. What are the benefits of **RIDGEFX™** Nail Surface Enhancer?

**RIDGEFX™** eliminates the need for buffing nails by masking the appearance of imperfections such as lines, ridges, bumps and grooves. Nails instantly look and feel smoother, and natural nail color is visibly brightened.
