You have permission to copy these project pages for personal, family, or single-classroom use. Please enjoy them with your homeschool students, math circle, co-op, or other small local group.

CREDIT: This math art project was inspired by Natalie Wolchover's beautiful spiral creation: [Natalie Wolchover \(@nattyover\) August 31, 2020](https://www.instagram.com/nattyover/).

NOTE ABOUT COVER ART: You may have noticed that the cover image has a handful of mistakes. Art, like math, is always a human endeavor. Mistakes are part of the process. Encourage your children to learn a growth mindset, not to expect perfection.
