Leather L1

A medium-thickness Japanese leather with a solid texture and a smooth feel. The expressive grain created by shrink processing gives it an original and luxurious feel. You can enjoy the changes that occur over time that are unique to genuine leather, such as the color, luster, and texture that become more tasteful the more time passes.

Genuine leather (aniline finish)

Leather L1 - GR-12 Brown

Leather L1 - GR-36 Darkbrown

Leather L1 - GR-13 Black

Semi-aniline leather is thinly coated to prevent dirt and fading while retaining the original texture of the leather. The thin coating gives the leather a transparent color and a soft texture that provides a certain level of durability and maintainability.
