AUGUST DESTINATION

With the success of the Destination resort dresses I have built a whole range of styles in patched tonal block prints. The perfect styles in each to begin our Spring season

SEPTEMBER SPRING PICNIC

The destination theme continues in patchwork block prints and colours to mix and match. A feeling of having to mix things up together was a strong impact on the range

OCTOBER FISHING VILLAGE

I started going through my collections of boxes of textiles collected in different parts of the world over the years. Here I found a printed linen length that I bought in the flea markets in Paris over 15 years ago. This inspired the "Fishing Village" print, with a distinct nod to Brigitte Bardot. Spending all my time on the coast over the months sent me into a longing for travel and the world of coastal towns.

Happy Healthy times for us all this 2021 year.

With Love, Emma x
