

ROLLING COVERS

OEM | Support heavier load | ASTM-Approved

Oxford Cloth Surface

Commercial Foam Inside

PVC Cloth Underside

SPA ROLLING COVER FEATURE

This is an interesting cover, it can be rolled, easily and conveniently. Since its launched, we got pretty good feedback and its purchasing need is growing up rapidly.

Less Water Absorbing
100% Waterproof Oxford cloth and PVC cloth prevent water from absorbing into the cover.

Tackle All Climate Condition
Environmental-friendly Material used inside, make it fit all kind of Climate, no matter hot summer or cold winter.

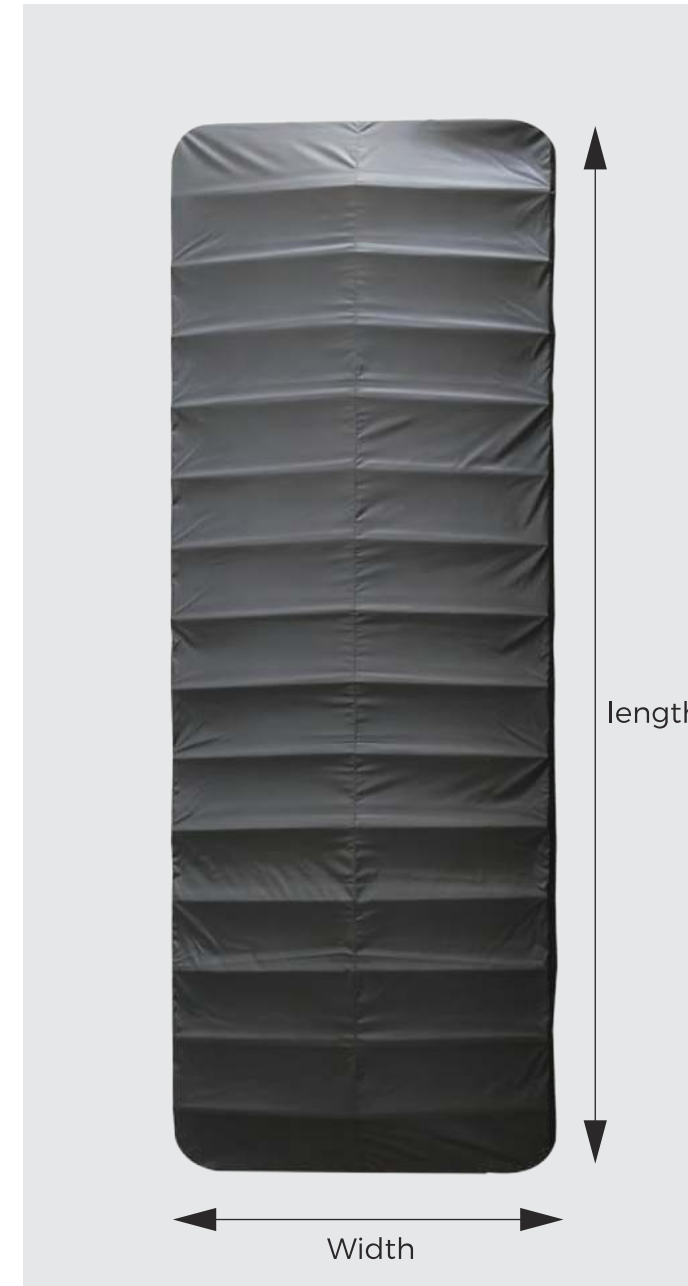

Less Space & Effort Needed
When it gets rolled, it keeps a slim size, easy to store and to be carried. Also, it doesn't need a lifter

Strong Durability
Fiber sticks as supporting structure to enable repeating rolled open&closed.

2nd Generation

ROLLING COVERS (SMART)

- Improved stronger structure
- Better loading capacity
- Nicer in outlook
- Slimmer in rolled size & Lighter in weight

Straps With Buckles

100% Waterproof Material

Top Grade Anti-tear Cloth
