

**Dear Parents**, thank you for choosing our nursery room stencil. We know how busy life can be and at times, it's hard to complete future projects. So we decided to make a stenciling kit that will help you create a **kid-friendly space** while making it **fast** and **enjoyable**. Try focusing on the things they like most - **PLAY!** This Adventure room invites your child to be happy, playful and entertained. Not only will they learn of the different **animals, shapes, numbers** and **colors** but the illustration will **keep your child engaged**, even when you are not in the room. From the moment babies open their eyes they **absorb information** like sponges. 80% of information their brain receives at this early age comes from their vision. By registering strong visual signals to the brain it **helps with a child's development!** This is a great decision to **create a magical place** for your child to create **future memories** without all the hassle!

*Please leave us your feedback on either our website, etsy or amazon as its always appreciated. Also please do not forget to share/tag us on your social media platform, we are @stencilslab would love to see the results once your project is finished!*

# StencilsLAB

Decorative Wall Stencils

# K002

Creating a space for your little child to play, sleep, grow, and learn should be a fun experience!

*Psychological studies say that colors have a significant impact on a child's behavior and growth, affecting mood and energy. Kids love colors!*

*By choosing the right colors that stimulate the brain and body they can increase your child's mood and health. Learning and development is very beneficial for you and your child!*

**Paint measurements are scaled to a room that is 8' x 11'**  
**So adjust amounts accordingly to the size of your room.**  
**If your space is larger than this size, you can buy extra paint from our store.**

Light Blue	Light Green	Fresh Grass	Orange Cream	Banana Cream	Chocolate Brownie	Strawberry Gum	Azure Surf	White	Black

- Adhesive spray - 1
- Masking tape - 1
- 9" Semi-smooth roller - 1
- 9" Roller frame - 1
- 4" foam roller - 2
- 2" foam roller - 6
- 2" roller frame - 1
- Stencil Brush - 1
- Touch-up brush - 1

- 1" Paint brush - 1
- 9" Paint tray - 1
- 4" Paint tray - 8

Paint supplies

## Total parts

## Stenciling Steps:

- 1 Take your required stencil and look for the engraving that says "Face-up". This will be the side facing you when the stencil is attached to the wall.
- 2 Place the stencil on a smooth or slightly texture surface.
- 3 Always apply repositionable spray adhesive on the back of your stencil before placing it on the wall.
- 4 After placing the stencil on the wall with the adhesive, use masking tape to hold down the corners to ensure it will not move during painting.
- 5 Flatten the stencil with a clean and dry roller to prevent any unwanted paint bleeding.
- 6 Stenciling is a dry technique so always remember to remove excess paint onto a paper towel before applying.
- 7 Always apply light pressure while painting. It is better to paint a few layers than to apply one thick application.
- 8 Gently remove the stencil from the wall and allow the paint to dry.

First let's paint the background color starting with the sky portion of the mural. We suggest using masking tape on the corners and baseboards of the wall to prevent painting unnecessary areas. Measure the height of your wall and divide it into three sections. Using paint Color P003\_1qrt, paint 2/3 of the wall with the 9" semi-smooth roller.

**Required Items:**

-Paint color P003\_1qrt

-9" semi-smooth roller

-no stencil needed at this time

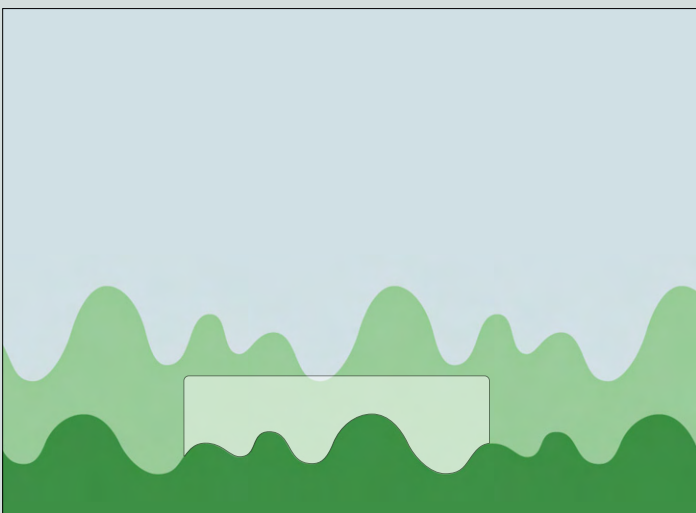

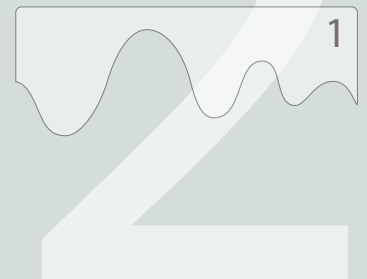

Take your **#1 stencil (hills)** and apply (pg 2) stenciling steps after choosing how far up you want the hills to start at.

**Required Items:**

-Paint color P001\_08oz

-4" foam roller

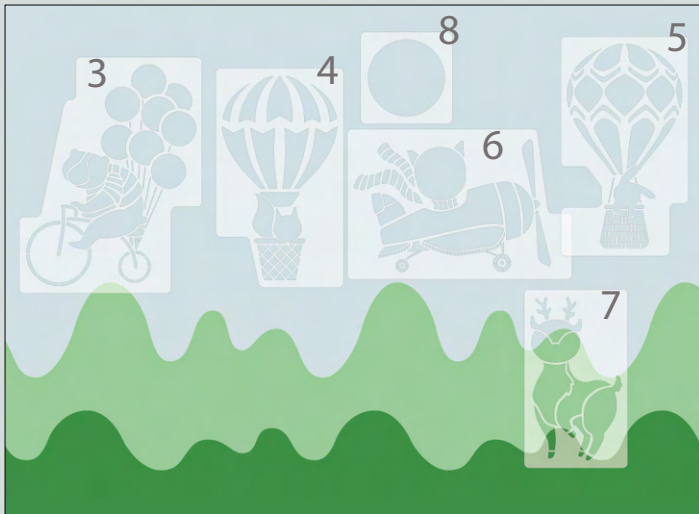

Take your **#2 (hill) stencil** and apply (pg 2) stenciling steps after choosing the desired location of the second set of hills.

**Required Items:**

-Paint color P007\_08oz

-4" foam roller

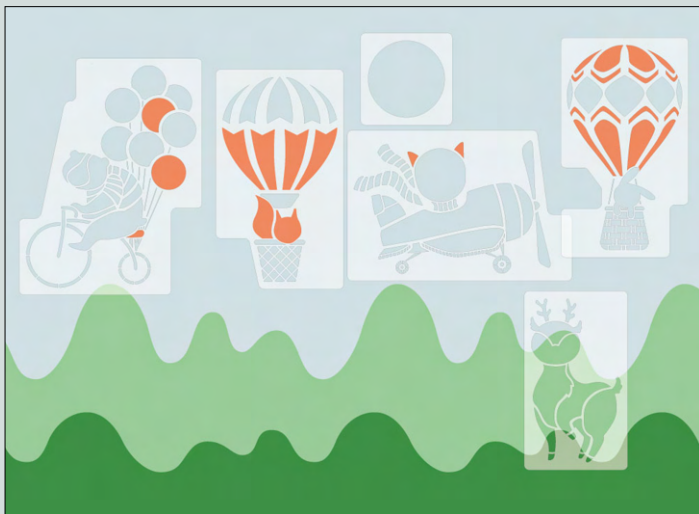

Now it's time to paint all the different elements. Take these stencils and place them on the wall applying the (pg2) stenciling steps.

- #3 (bear)
- #4 (air balloon)
- #5 (air balloon)
- #6 (fox)
- #7 (reindeer)
- #8 (sun)

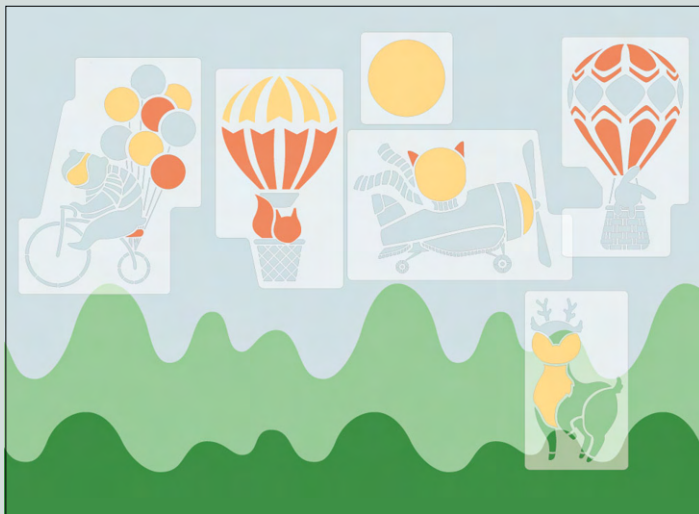

*The face portions of the stencils will be painted later and can be found with the engraving "cut here"*

Now we are ready to paint. We are going to paint these stencils in groups, helping us move faster. For example, start by painting all elements with the color P008\_04oz, then start painting all elements with other colors, etc.

**Required Items:**

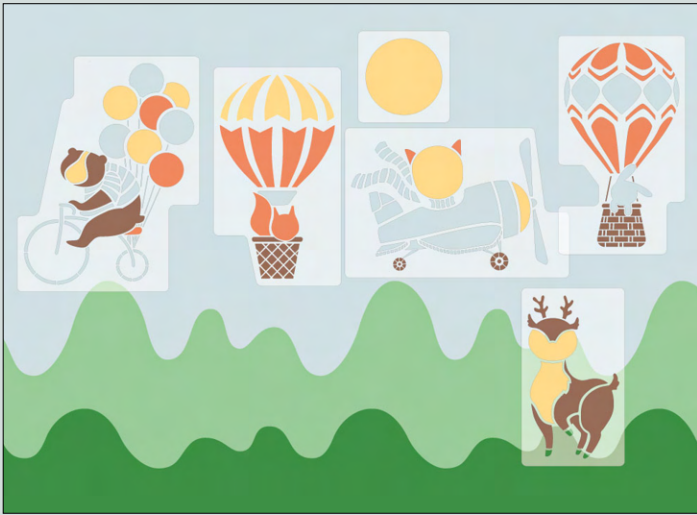

- Paint color P008\_04oz
- 2" foam rollers

**Required Items:**

- Paint color P015\_04oz
- 2" foam rollers

**Required Items:**

-Paint color P004\_04oz

- 2" foam rollers

7

**Required Items:**

-Paint color P014\_04oz

- 2" foam rollers

8

**Required Items:**

-Paint color P006\_04oz

- 2" foam rollers

9

Take **#11 stencil (clouds)** and **#9 (small balloons)** and apply (pg2) stenciling steps after choosing your desired locations.

**Required Items:**

-Paint color **P002\_04oz,** **P006\_04oz** clouds

-Paint color **P008\_04oz,** **P006\_04oz,**

**P015\_04oz,** **P014\_04oz** balloons

**2" foam rollers (5 pcs)**

Take your **#14 stencil (trees)** and apply (pg2) stenciling steps after choosing desired locations.

**Required Items:**

**-Paint color P007\_08oz**

**4" foam rollers**

Take your **#15 stencil (small spots)** and apply (pg2) stenciling steps to any desired location. You also can use these spots for snow or rain with blue color.

**Required Items:**

**-Paint color**

**P007\_08oz** - 4" foam rollers

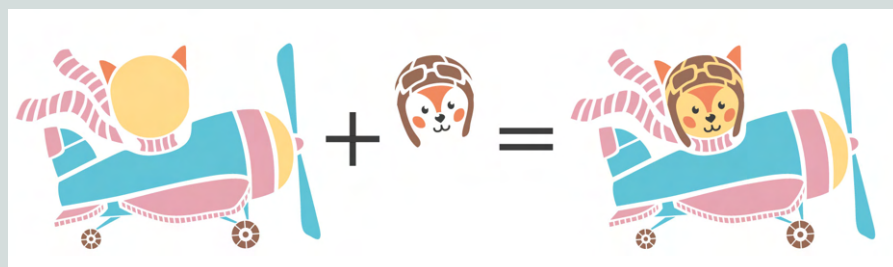

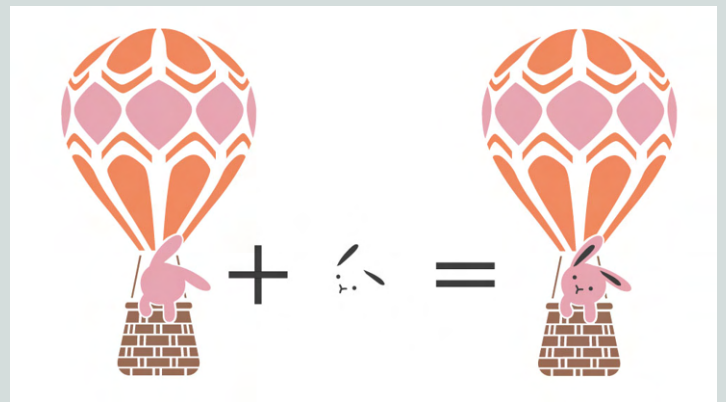

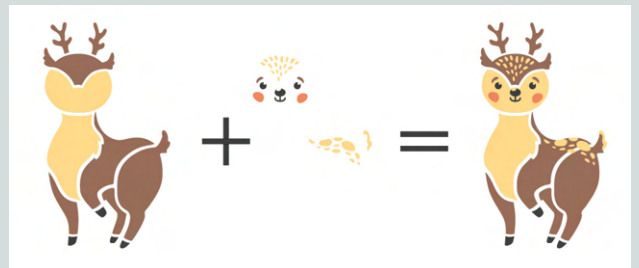

**P001\_08oz** - 4" foam rollers

**P006\_04oz** - 2" foam roller

Now it's time to paint all the animal faces using the cut out face stencils with the stencil brush. Remember to use your (pg2) stencil steps. See pictures below for reference.
