- Safety and Superior Quality is Guaranteed – Always!
- Inventory is never an issue –whether 250 pcs or 25,000 pcs.
- Custom Imprinted Hot/Cold items are always made fresh to order. Not another warehouse item.
- Unique Trap printing process – your art never touches skin/food/beverages, can't wear off.
- Fast turnaround including stock blank bead and gel pack/ice mat inventory.
- Our products have all passed independent lab testing as safe & non-toxic by well renowned SGS test labs.

We bring new and innovative products to market in our category of heating and cooling. Our products encompass food safety, medical, sports and recreational use. Our line of promotional products are uniquely manufactured by us or for us to our exacting specifications and design requirements.

In addition to our USA manufacturing facilities, we produce products in Guangdong and Zhejiang provinces in China. We have offices and staff in China for quality control, inspection and product development.

We have experienced internal staff providing custom, hands-on product development and production. Our company offices in USA and Dongguan, China allow for close factory relationships and ability to take products from conception to completion with high quality and superior design. Recent custom production examples include: a 'golden' cooling egg, uniquely styled vacuum insulated food and beverage containers, cooling necklaces, custom logo shaped gel packs, multicolored wine chiller sleeves and custom designed hot/cold therapy wraps.

Our decoration capabilities include laser imprinting, pad wraps and screen printing, and dye sublimation printing of fabrics to match the creativity of your customers and designers.

### CUSTOM DESIGN and DIRECT IMPORT EXPERIENCE
