

Digit Numeric Pager

Versatile

The Digit Numeric Pager is capable of receiving, displaying and storing number messages of up to 24 digits per message. In addition to receiving numerical information (such as telephone numbers) it can also receive a variety of messages using your own pre-arranged number code.

Discreet

For complete discretion, it can be programmed to alert you silently of an incoming message. You can also choose from a range of audible alerts.

Reliable

You can rely on receiving your messages within seconds. Paging Networks use advanced satellite technology to relay messages to you via transmitters located across the UK.

Easy To Use

To send a message to you, callers simply dial your pager number and then tap out the numeric message on any tone phone keypad.

Call Charges

Calls to this pager from BT landlines are charged by the length of time you are on the phone. The pence per minute price also varies according to the time of day.

The BT tariff code is 'r - Calls to Pagers & Voice Messaging Services'.

Other operators (including mobile networks) may charge different rates.
