

Cat & Cloud started in 2016 with a dream to create a meaningful workplace. One where each individual could share their unique gifts, grow and find value in their day to day work. We believe that if we take our mission seriously, "Inspire Connection by Creating Memorable Experiences", we can truly create change for those who work with us and the community we connect with.

We focus on hospitality, serving the best coffee on earth, artistry in our craft, and package it all in an energetic and fun atmosphere. Most of the success the three owners have had comes from working behind the counters and engaging on the principles we have in place at Cat & Cloud. We hope you'll join our team and help contribute to making something special.

Roastery Ambassador

At Cat & Cloud, we are on a Mission to inspire connection by creating memorable experiences.

The Cat & Cloud Roastery is the pipeline for bringing raw material in, transforming it into something truly special, and ensuring that our team has everything they need to deliver on our Mission.

The Roastery Ambassador creates memorable experiences through roasting, bagging and shipping coffee to our guests and partners all over the world.
