

The Working Tool for all day Performance

CIRCLE™ SERIES

 **SENNHEISER**
The Pursuit of Perfect Sound

A woman with long brown hair, wearing a purple long-sleeved shirt and a silver watch, is seated at a desk. The background is a blurred office environment with other people and bright lighting. The overall tone is professional and focused.

Complete the Circle of Communication

Sennheiser's CIRCLE™ Series, our popular range of robust, wired headsets, has proven to be a lasting favorite with contact centers, offices and Unified Communication professionals around the world - and for good reason: In increasingly stressful workplaces, being able to hear and be heard clearly is critical to performance - and long-term comfort is essential for all day users to maintain their focus and energy.

Smart communication tools like CIRCLE™ allow users to work more efficiently, giving their company a measurable competitive advantage. With Sennheiser Voice Clarity, noise-cancelling microphone for noisy environments and a lightweight, ergonomic design for all day use, CIRCLE™ is simply the perfect tool when clear communication and long-term user comfort are crucial to the job in hand.

A Full Circle of Benefits and Features

Put an end to the frustration of hard-to-hear conversations with Sennheiser Voice Clarity and experience a new level in all day wearing comfort that lets you focus on the job, not your headset.

Sound leadership

With Sennheiser Voice Clarity and noise-cancelling microphone, CIRCLE™ headsets optimize speech intelligibility in noisy environments to deliver a clearer, more natural conversational experience during calls.

Quality design

Built to last, CIRCLE™ headsets are with their durable construction designed for years of continuous use. Their lightweight, metal reinforced headband with numbered grooves gives a personalized fit and a fully adjustable, bendable boom arm positions the microphone perfectly.

User focus

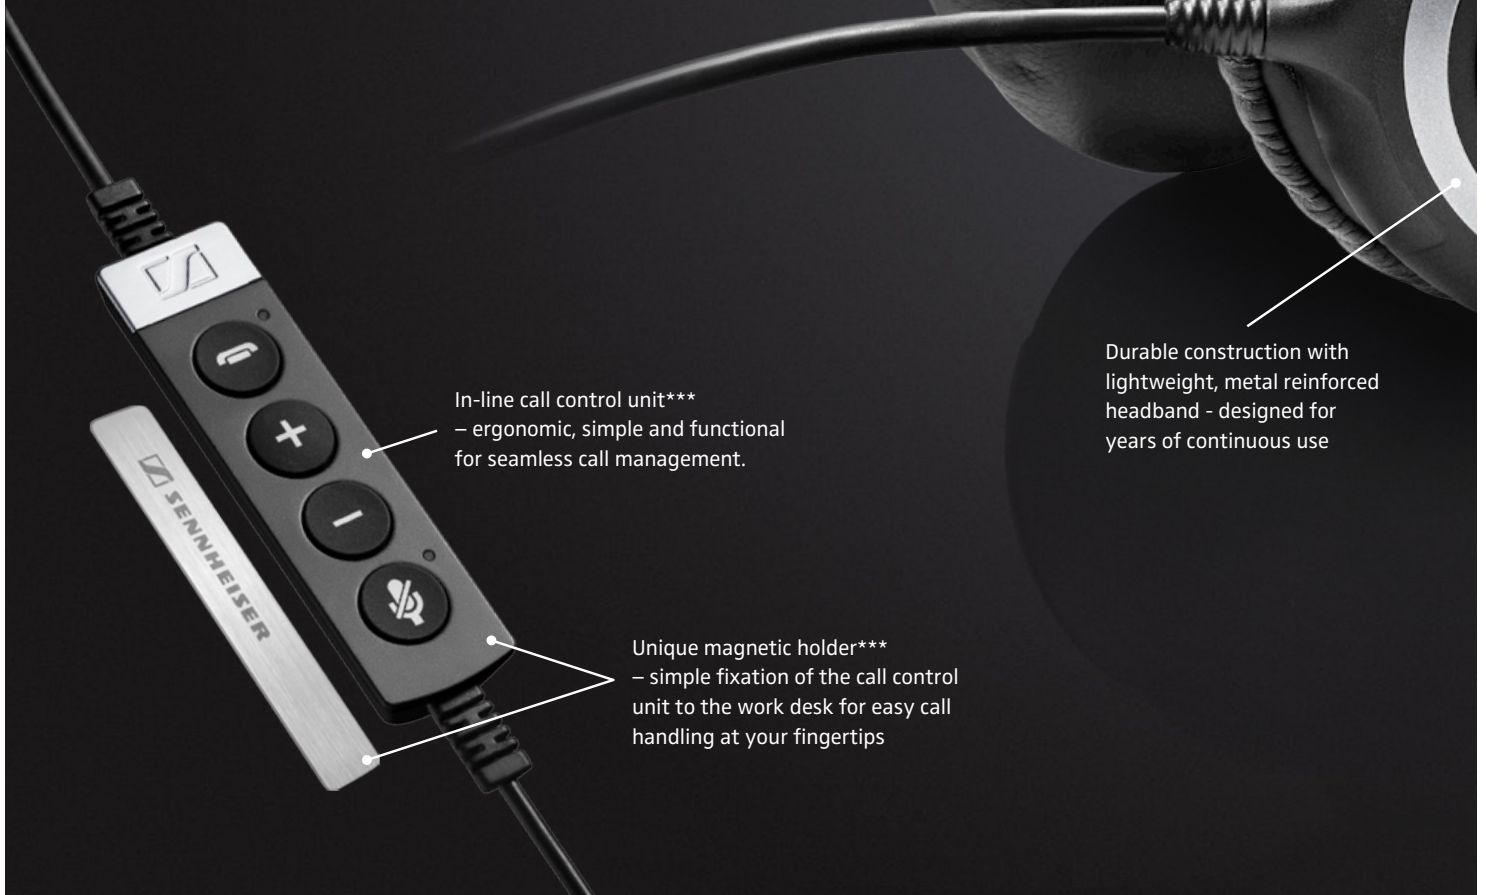

Designed for all day use, CIRCLE™ headsets feature CircleFlex® dual-hinge ear cups with ear pads in soft acoustic foam with leatherette cover for user flexibility and long lasting user comfort. Sennheiser ActiveGard® technology protects users from acoustic shock and sudden sound surges. Additionally, a nylon carry pouch for transport or storage is included to protect the headset when not in use.

Acoustic foam ear pads with leatherette cover – for all day wearing comfort

Durable construction with lightweight, metal reinforced headband - designed for years of continuous use

In-line call control unit***
– ergonomic, simple and functional for seamless call management.

Unique magnetic holder***
– simple fixation of the call control unit to the work desk for easy call handling at your fingertips

Switchable Noise at Work limiter*
– in compliance with EU Noise at Work legislation**

CircleFlex® dual-hinge ear cup system adapts seamlessly to your ear for perfect fit

Bendable boom arm
– ensures optimal microphone position

Noise-cancelling microphone
– filters out ambient noise for optimum speech clarity

Unique robust design
– crafted with look and feel in mind

Numbered headband grooves for step-by-step adjustment for perfect fit

* Available on USB variants

** EU Noise at Work Directive (Directive 2003/10/EC)

*** Available on the USB CTRL II and USB MS II variants

Variants Overview of Sennheiser CIRCLE™ Series

CIRCLE™

SC 230, SC 260
