VXi TalkPro™

The sound choice for speech recognition.

There's good reason VXi's next generation TalkPro headsets are the talk of the speech recognition industry. In fact, there are a lot of good reasons. They have a sleek, one-piece look that's as sophisticated as the technology it houses. The latest VXi noise-canceling microphone technology for accurate audio performance. Wideband audio, for more natural, productivity-boosting sound quality. And the UC models add DSP (digital signal processing) and echo cancellation, ensuring the most precise and clearest audio for speech recognition and IP communications. TalkPro headsets are perfect for contact center and office use too. And for mobile professionals, Skypers and road warriors. With seven models to choose from, there's a TalkPro that's just right for every need and every environment.

- **Improved noise-canceling microphone** ensures your application hears precisely what you say.
- **Even more lightweight and comfortable**, easy to wear all day long.
- **Flexible microphone boom** stays where you put it, for consistent, optimal voice quality.
- **Plug-and-play ease of use** means no drivers or software to install.
- **Durably designed** for all-day, every day use.
- **A choice of models and wearing styles**: monaural, binaural stereo and convertible.
- **UC-ready when you are** to fit right into your Unified Communications strategy.

With seven models to choose from, TalkPro headsets are perfect for every speech recognition use, from dictation to Unified Communications to home agents.

VXi
The Sound Choice

Get the speech recognition you deserve.

Choose the VXi TalkPro headset that's right for you.

VXi TalkPro SC—PC sound card headset
The VXi TalkPro SC headset was designed to be used with your computer's soundcard. Its two 3.5mm plugs connect to your computer's microphone jack and headset jack. The VXi TalkPro SC is available in a monaural over-the-head wearing style (VXi TalkPro SC1).

VXi TalkPro USB—Plug-and-play USB headsets
VXi TalkPro USB headsets feature a USB connection that plugs directly into a USB port on your computer, plus inline mute and volume control. The VXi TalkPro USB is available in monaural (VXi TalkPro USB1), binaural stereo (VXi TalkPro USB2) and convertible (VXi TalkPro USB3) wearing styles.

VXi TalkPro UC—Optimized for Unified Communications
VXi TalkPro UC headsets feature a USB connection that plugs directly into a USB port on your computer. Full-featured and UC-ready, VXi TalkPro UC headsets are optimized for Unified Communications with DSP (digital signal processing) and echo cancellation and include one-touch inline mute, volume, and answer/end controls. The VXi TalkPro UC is available in monaural (VXi TalkPro UC1), binaural stereo (VXi TalkPro UC2) and convertible (VXi TalkPro UC3) wearing styles.
