“This is a Story Map Book Report done by my son based on the MindWing Concepts methodology. His project was a great success and got raving reviews from his teacher. My son and I enjoyed putting all the different events and important information together using the icons.”

This Story Map Book Report was sent to me by a colleague in Richmond, Virginia. She introduced MindWing’s methodology to the Henrico County Public Schools by inviting us to come and present to the Speech/Language Department earlier this year. We appreciate her providing the opportunity to share our Methodology with her colleagues, as well as her sharing it with her son for a project he had on the novel, Eragon.
