MindWing Concepts, Inc. provides highly interactive professional development workshops and multi-sensory instructional and intervention materials for public school districts, organizations, agencies, private schools, early childhood settings, and parents/families.

Our research-based methodology is rooted in the discourse level of language to target narrative, expository text, and conversation. **Our goal is to give every child**—regardless of age, ability or culture—the skills to think, communicate & learn effectively in order to achieve academic and social success.
