FAQ

1. Which charging port should I use to charge my device ?

Each charging port can charge any device at full speed. It doesn't matter to which port your device is connected. You don't need to decide among them. All USB ports are intelligent, so they will recognize and give it the maximum power while charging.

Note : Not compatible with ASUS Transformer tablet.

2. Is it compatible with 240V outlets for travelling out of India?

Yes, it's input is 100-240V so it is electrically compatible all over the world.

Please note:

In order to achieve maximum charging speed we recommend using original manufactures certified cables to charge you device.

WARRANTY

Zaap Technologies warrants all of its hardware products excluding refurbished items, with a One Year Limited Warranty against defects in workmanship and materials under normal use for a period of one year from the original purchase date. This warranty does not cover accidental damage, misuse, improper care or alteration, or acts of God such as floods and earthquakes, etc.
