

## CASIO EDIFICE ECB-800 SPORTS WATCH

The Casio ECB-800 watch comes with extensive lap time features and a large LCD to support motorsports. Available in three models, it features a large, full-dot LCD to enable lap-time graphing, recorded down to 1/1000th of a second, with a 200-lap memory. The watch has useful functions for motorsports, including an inset dial that displays the average speed, making it valuable for racing teams operating on precise timing. The ECB-800 can be paired with a smartphone to receive accurate time data and can also be transferred to a smartphone app, allowing viewing and storing of detailed data. ## MOTUL 300V<sup>2</sup> 10W50 ENGINE OIL

Motul's new engine oil, 300v<sup>2</sup> 10w50, is made for racing enthusiasts. It brings extra performance, validated by top-tier factory teams, in both on-road and off-road applications. Formulated using renewable bases, it is composed of less fossil raw material and has a lower carbon footprint during manufacturing. Used off-road, it offers increased torque, clutch grip and gearbox reliability while on road or on track, it enables an increased power output, oil durability and enables constant engine performance. Its organic base also limits its environmental impact.

## PIONEER SPH-C19BT HEAD UNIT

The Pioneer SPH-C19BT head unit can be connected to iOS and Android phones through Bluetooth or USB cable. It has five interactive keys

assigned to perform five most important tasks, without distracting one from safe driving. A music key to change or stop the music, a voice recognition key to give voice commands, a navigation key to locate a destination on maps, a messages key to listen to incoming messages, and a menu key to launch its app to customise settings. It also supports steering wheel controls and hands-free calling. It is additionally equipped with a Rear Parking Sensor Input, which is compatible with the Pioneer Parking Sensor.

## WAXPOL X-CUT RUBBING COMPOUND

The Waxpol X-Cut rubbing compound works quickly to remove defects, restore colour and revive paint jobs to give a high-gloss finish without leaving any scratches. It removes sanding marks, swirl marks, scratches and oxidation, revives dull and neglected finishes, and restores a clean and smooth finish. It does not contain silicone or wax and is suitable for application by hand or machine.

It is available in 100ml and 500ml bottles. For more details, visit [www.waxpol.com](http://www.waxpol.com) or contact [info@waxpol.com](mailto:info@waxpol.com)

## ENEOS PREMIUM MOTOR OIL 'SUSTINA'

The high-performance Eneos Premium Motor Oil 'Sustina' is formulated using patented cutting-edge technology. W-Base enables it to have extremely stable viscosity in a wide range of temperatures and works for better fuel efficiency. The ZP additive chemistry reduces the formation of sulphuric acid, helps detergency and keeps your car's engine clean.

Made with advanced additives and base oil technology, Eneos is developed by the company's state-of-the-art R&D centre, making it a high-quality lubricant for cars worldwide.
