## Geo Bouclé Rug

As the originator in Alpaca rugs, Rosemary developed Geo Boucle in response to the increasing demand for a Rosemary original alpaca rug, as well as the desire to create a textile that is incomparable in design and concept. Geo Boucle blends our classic alpaca rugs Pebble Boucle, Double Weave Boucle, and Zoe together in a geometric pattern and joins them with a plush alpaca detail. The edges of the rug also reflect the geometric pattern with thoughtfully cut-out patterns. The design can be customized and created uniquely for your clients.
