Hand Painted Alpaca Bouclé Rug

Working closely with her artisans for over 15 years developing and innovating bouclé, Rosemary has created this Hand Painted extension of the original alpaca bouclé rug Solid. This hypoallergenic, deliciously comfortable flatweave rug from Peru is made of the softest alpaca. The yarn is painted by hand before being woven to create a natural painterly effect. This rug is practical—alpaca being more resistant to dirt than wool—reversible and durable making it perfect for a playroom or family room as well as bedrooms.
