## Vintage Wash Wool Rug

It's hard to believe that this soft, shimmery rug is 100% wool. In a similar process to the silk, we give our wool rugs a special wash finish, which brings up the natural lanolin in the yarn and transforms the wool into a new interpretation of beauty. Uncomplicated in its appearance, this chic rug is both simple and sumptuous and can be used in any setting. Kid and dog friendly, it provides a cost-effective and practical alternative to our Vintage Wash silk rugs. The carving detail can be included along one edge or on all four sides.

### DETAILS:
