# The Beyondtech Story

**Ours, is a story of the right speed and pace. The story of how an idea can help others, through quality, perception and details.**

We noticed how little options you had. Either: enormous faceless big brands, that didn't pay enough attention to that particular requirement you have, or corporations with cheap prices for anything, but low quality and no way to support you in the long term.

That's where we stepped in, since 2013 we have been developing solutions, not just items or products. We administered all operations around the world from Miami, FL, at your velocity, at your needs.

We understood that sometimes what's on the retail won't work for you, that you need the manufacturer to create and build for you, without taking too much time and without making it an unpleasant journey because you need support for that solution.

Since then we had operations where we are needed most, South America, and Europe are the first new branches we opened, our vision is not market focused, is client focused, and this means we go where your projects are, we move at your rhythm.

**Today, we have the opportunity to present you our results during this journey, to give you a snapshot of how many we assisted, so you can decide the right way for us to help you grow.**

The image features a world map with several regions highlighted in a light blue color. Each highlighted region is accompanied by text indicating the presence of distribution centers and authorized resellers. The highlighted regions include Japan, Canada, the United States, Venezuela, Colombia, Costa Rica, Panama, Barbados, Chile, France, Germany, Spain, Italy, and the United Kingdom. The text is presented in a clean, sans-serif font, with the main headline in a larger, orange font.

# We are where you need us. No delays, no excuse.

With its distribution centers and authorized sellers, Beyondtech gets you covered no matter where you are in the world.

Beyondtech  
has got  
**your back.**

## WARRANTY

**Beyondtech** is proud to show how we can back you by giving all our products 360 days warranty in the rare case of malfunction or if you received our package with harm or in a deteriorated state due transportation.

All our efforts are directed to quality so we can't accept you receive anything less from us than the best experience we can provide.

That's the **Beyondtech Premium Quality**, and every time you purchase from us or one of our distributors any Beyondtech product you purchase qualify for this spectacular proof that we have in our products.

## PRODUCT QUALITY

-  All our products Compliance with **ANSI/EIA/TIA** Standards.
-  Fiber Optics Patch Cables, Pigtaills, Fan-Out Kits and Indoor/Outdoor solutions compliance with the IEC 60332-1 providing safe LSZH (Low Zero Smoke Halogen) Cables.
-  Exceed the **EIA/TIA** Performance Standard.
-  Restriction of Hazardous Substances (**RohS**) compliance in all our products.
-  Each cable is meticulously tested to guarantee the performance that we claim.
-  1% Defect Rate reported in 5 years of supplying telecom solutions.

# Fiber Optics Indoor Cable Assemblies

- Specially designed for fast Ethernet, Fiber Channel, Gigabit Ethernet Speeds, data center, premises, educational, LAN, SAN and commercial use
- Patch Cables are for connections between patching panels and network and server equipment
- Operation at -20°C to +70°C and a minimum installation bending radius of 5.0 cm and a minimum long term bending radius of 3 cm
- Conforms with TIA/EIA 492AAAA and IEC60793-2-10 A1b standards and complies with RoHS specifications
- Ferrules are made of zirconia ceramic, which offers the highest performance and durability of all ferrule material types
- Commonly used in passive applications (GPON, FTTX and LANs)

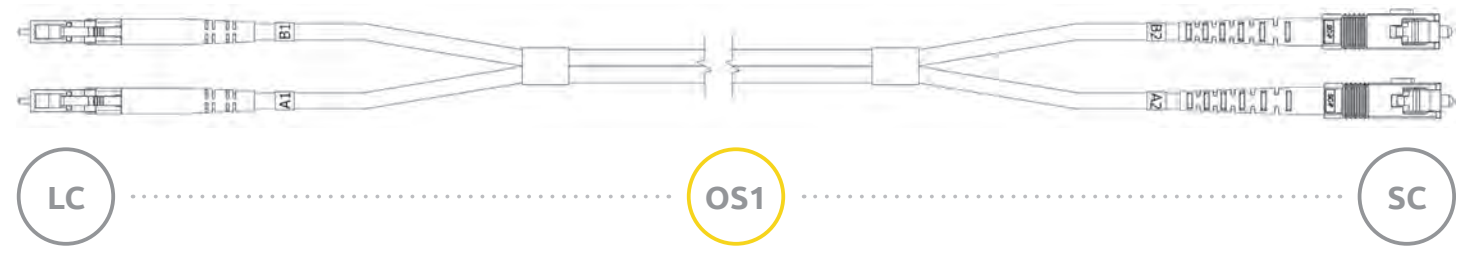

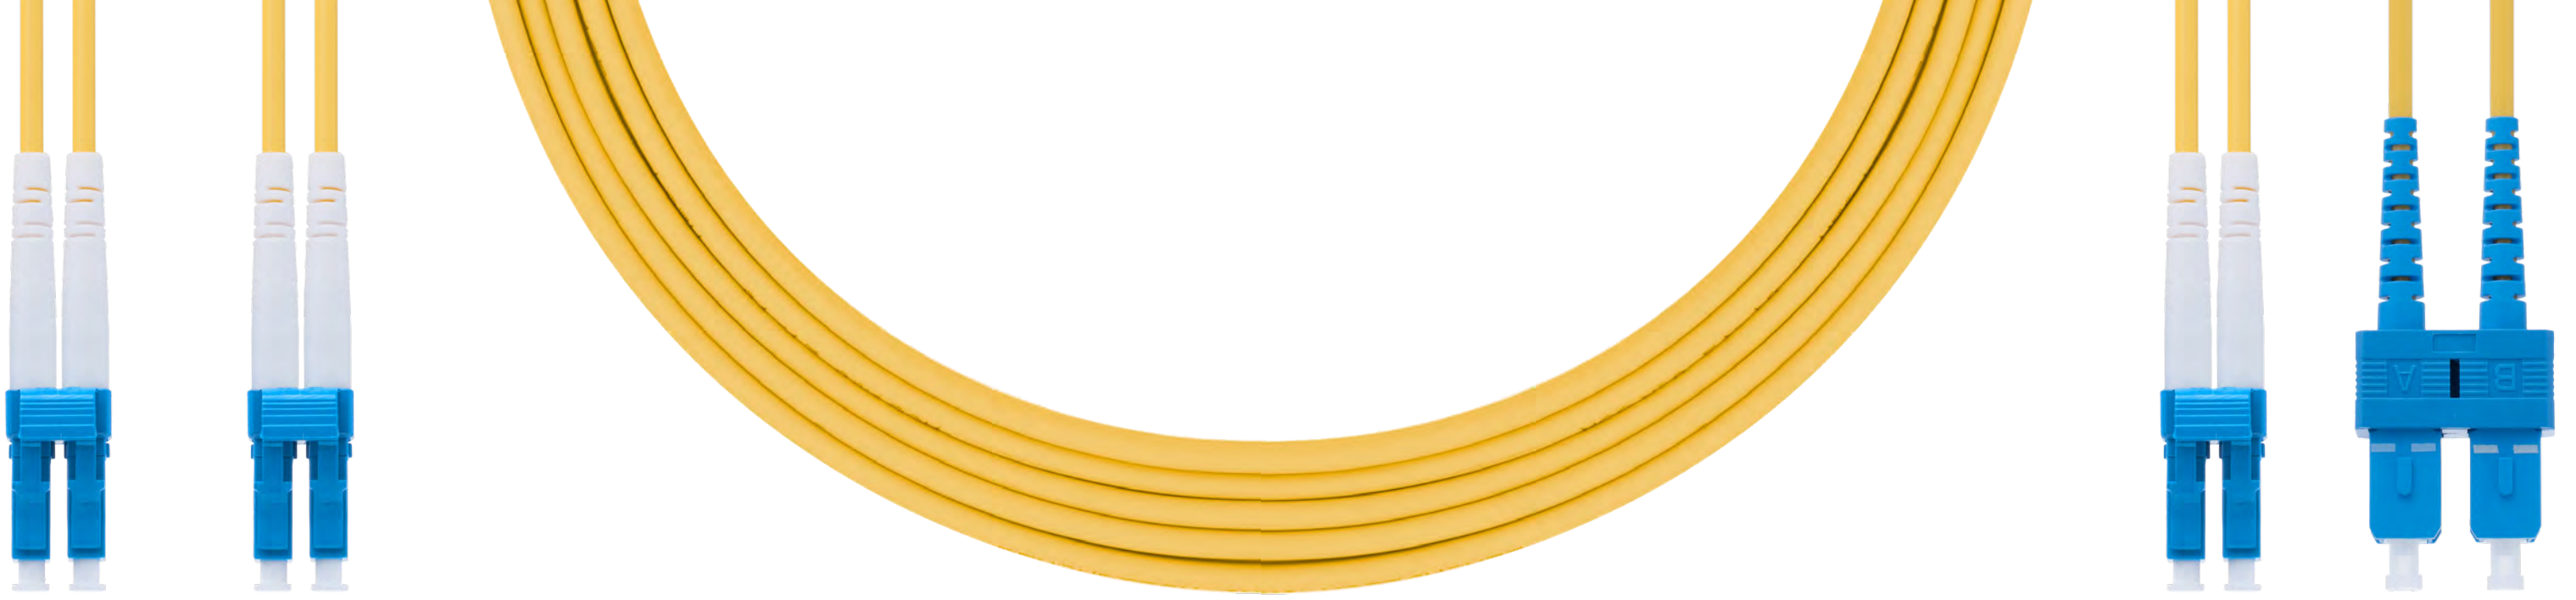

The image shows several fiber optic cables against a white background. On the left, a blue connector with two ports is attached to two yellow cables. In the center, a black connector with two ports is attached to two yellow cables. On the right, a blue connector with two ports is attached to two yellow cables. The cables are arranged in a way that they appear to be connected and running across the page.

## Fiber Optics Indoor Cable Assemblies

**OS1/OS2** OM1 OM2 OM3 OM4 OM5

- Application is used in long distance, higher bandwidth runs by Telcos, CATV companies, and Colleges and Universities
- Low water peak optical fibre suitable for CWDM operation
- Single Mode fiber is usually 9/125 in construction.
- OS1 is appropriate to internal tight buffered cable construction, while OS2 is appropriate to a loose tube or blown fiber solution .
- Each Beyondtech Singlemode Fiber Patch Cable is individually and rigorously tested and certified to be within accurate optical insertion loss.
- Attenuation testing performed in accordance with EIA/TIA-455-171A.

Fiber Optics Indoor Cable Assemblies

OS1/OS2 **OM1** OM2 OM3 OM4 OM5

- Comes with an orange jacket and has a core size of 62.5 micrometers ( $\mu\text{m}$ )
- Supports 10 Gigabit Ethernet at lengths up to 33 meters
- Recommended for LED based equipment that can send hundreds of modes of light down the cable
- Specially designed for fast Ethernet, Fiber Channel, Gigabit Ethernet Speeds, data center, premises, educational, commercial, LAN, SAN and Asynchronous Transfer Mode (ATM) applications. It supports video, data and voice services
- Each Beyondtech OM1 Multimode Fiber Patch Cable is individually and rigorously tested and certified to be within accurate optical insertion loss
- Attenuation testing performed in accordance with EIA/TIA-455-171A

Fiber Optics Indoor Cable Assemblies  
OS1/OS2 OM1 OM2 **OM3** OM4 OM5

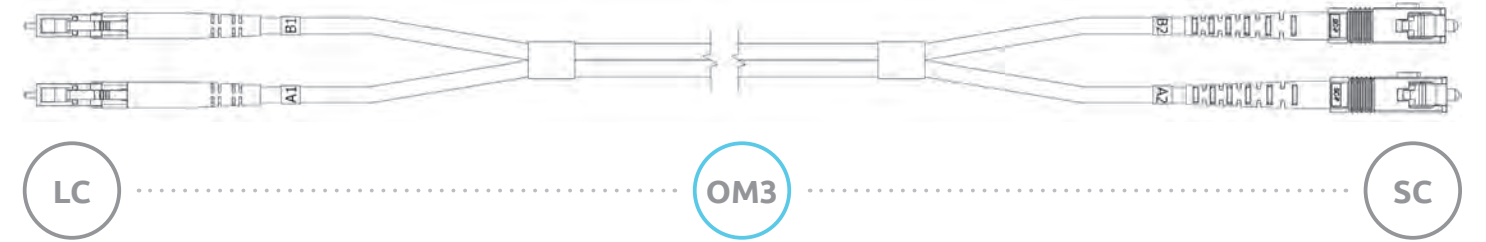

- Comes with an Aqua jacket and has a core size of 50 micrometers ( $\mu\text{m}$ )
- Capable of running 10 Gigabit Ethernet at lengths up to 300 meters.
- Recommended for Laser based equipment that can send hundreds of modes of light down the cable
- Specially designed for fast Ethernet, Fiber Channel, Gigabit Ethernet Speeds, data center, premises, educational, commercial, LAN, SAN and Asynchronous Transfer Mode (ATM) applications. It supports video, data and voice services.
- Each Beyondtech OM3 Multimode Fiber Patch Cable is individually and rigorously tested and certified to be within accurate optical insertion loss
- Attenuation testing performed in accordance with EIA/TIA-455-171A

### Fiber Optics Indoor Cable Assemblies

OS1/OS2 OM1 OM2 OM3 **OM4** OM5

- Comes with an Aqua jacket and has a core size of 50 micrometers ( $\mu\text{m}$ )
- Supports 10 Gigabit Ethernet at lengths up 550 meters and it supports 100 Gigabit Ethernet at lengths up to 150 meters
- Recommended for Laser based equipment that can send hundreds of modes of light down the cable
- Specially designed for fast Ethernet, Fiber Channel, Gigabit Ethernet Speeds, data center, premises, educational, commercial, LAN, SAN and Asynchronous Transfer Mode (ATM) applications. It supports video, data and voice services
- Each Beyondtech OM4 Multimode Fiber Patch Cable is individually and rigorously tested and certified to be within accurate optical insertion loss
- Attenuation testing performed in accordance with EIA/TIA-455-171A

## Fiber Optics Indoor Cable Assemblies

OS1/OS2 OM1 OM2 OM3 OM4 **OM5**

- Comes with an Green Lime jacket and has a core size of 50 micrometers ( $\mu\text{m}$ )
- OM5 cabling supports all legacy applications at least as well as OM4, and is fully compatible and intermateable with OM3 and OM4 cores
- Recommended for Laser based equipment that can send hundreds of modes of light down the cable
- Specially designed for fast Ethernet, Fiber Channel, Gigabit Ethernet Speeds, data center, premises, educational, commercial, LAN, SAN and Asynchronous Transfer Mode (ATM) applications. It supports video, data and voice services.
- Each Beyondtech OM5 Multimode Fiber Patch Cable is individually and rigorously tested and certified to be within accurate optical insertion loss
- Attenuation testing performed in accordance with EIA/TIA-455-171A

# MPO Fiber Optics Solutions

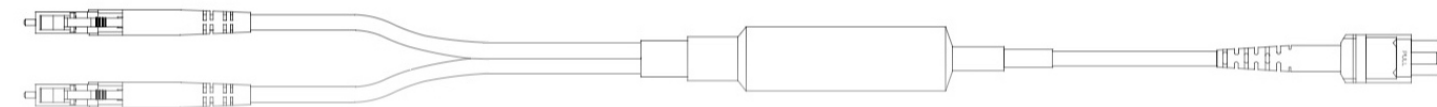

- They are tested and they offer a reliable solution for data centers.
- Guaranteed for a 40 Gigabit Network.
- Trunk backbone to high density racks.
- Compliance with IEC-61754-7; EIA/TIA-604-S.
- Optimal use for servers, data centers and Test Equipment.
- Bayonet locking design makes ease of mating even in the most inconvenient locations.

## Fiber Optics Connectors: Epoxy and Field Connectors

- Specially designed to provide low insertion loss and back reflection, along with high precision and mechanical stability.
- Each fiber optic connector is individually and rigorously tested
- Suitable for Local Area Networks (LANs), Wide Area Networks (WAN), Metropolitan Area Networks (MAN) data center, business, premises, FTTH and commercial applications.
- Comply with IEC 61754-13 and TIA 604-4-B, FOCIS-4 intermateability standards
- Conform to RoHS environmental requirements.
- They are an ideal companion of Beyondtech Bulk Fiber Optic Cables.

## Fiber Optics Adapters

- Specially designed to provide precise simplex fiber optic cable to cable connection or patch cords.
- Use in FTTH, FTTP, FTTA, high EMI, and commercial applications.
- Comply with IEC 61754-4, IEC 60784-14 and TIA 604-3
- Conform to RoHS standards.
- Are lightweight due to their plastic bodies. Mating sleeves are made of ceramic
- Provides low loss and high signal integrity.

## SC/APC Fiber Kit Single Mode Simplex

Part Number	Type	Packing Unit	Polishing	Sleeve Type	Flange	Adapter Material
BTALCALCASSM-GZNFNS-5P	Simplex	5	APC	Zirconia	Flange	Plastic

# Ethernet Indoor Cables Assemblies

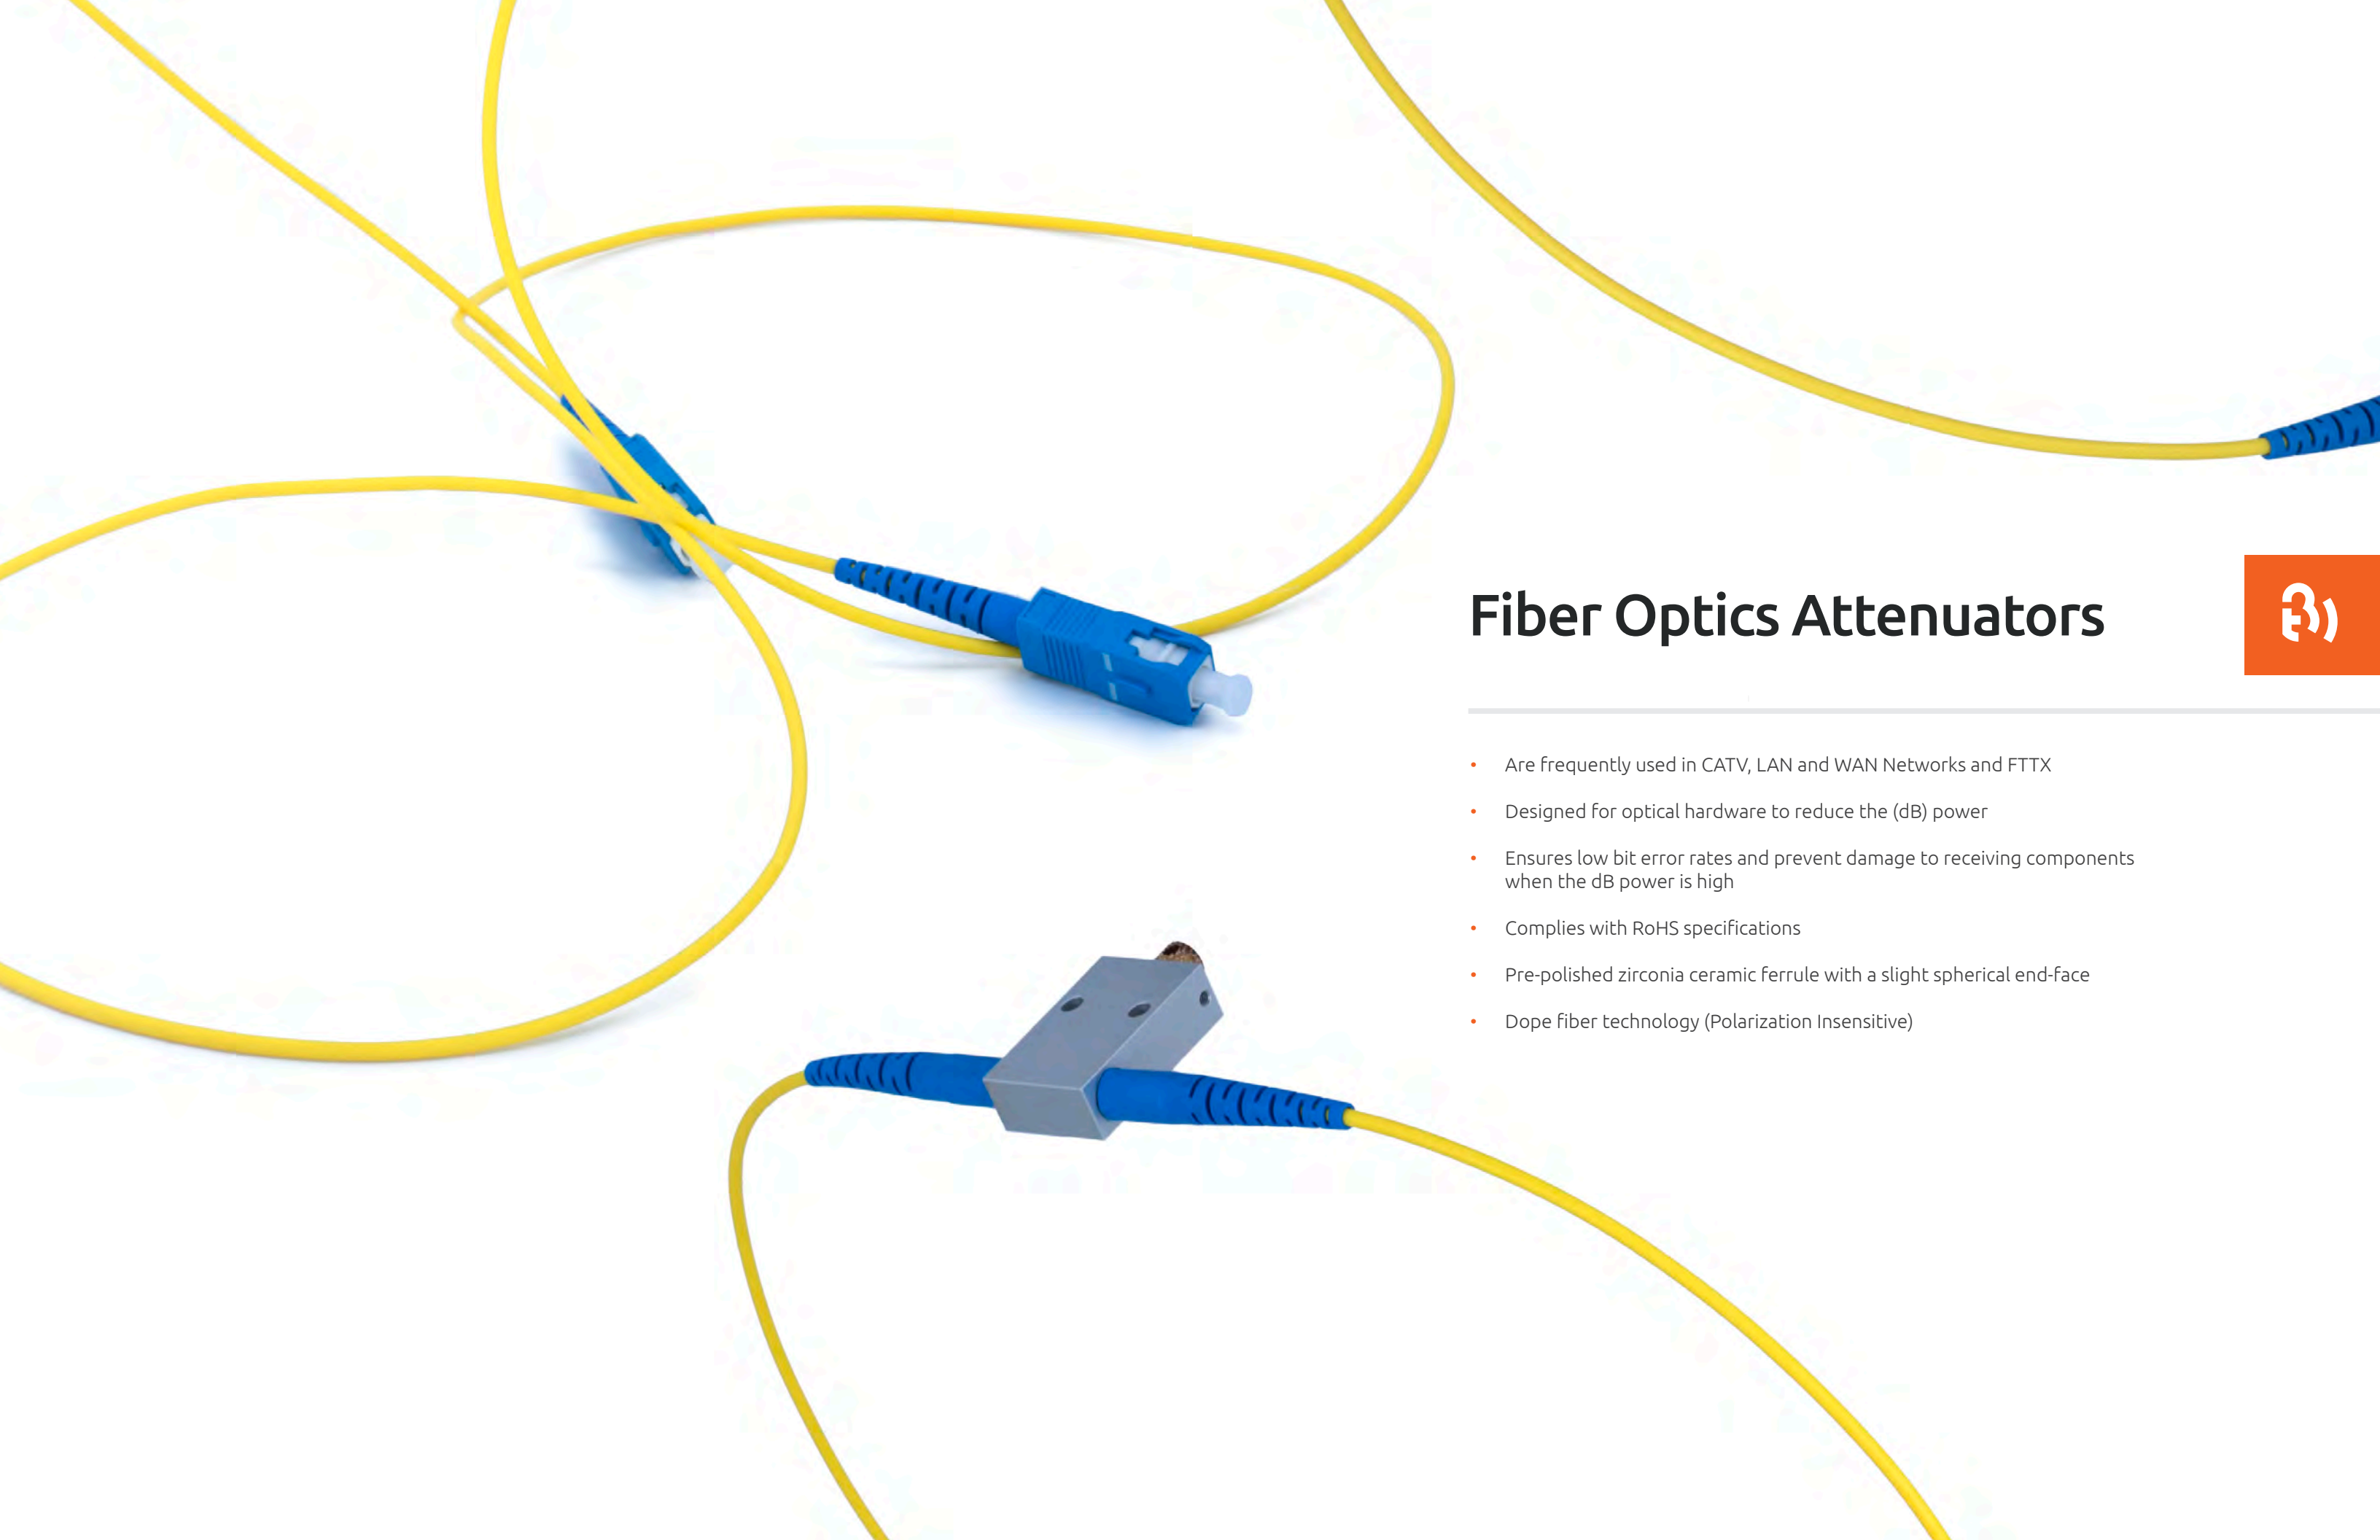

- PureGigabit series provide outstanding connectivity for PC, laptops, network printers, switches and termination boxes.
- Power over Ethernet (PoE).
- RJ45 connector Snagless boot 50 microns gold plated connectors on both ends ensure reliable performance, accurate high-speed data transmission, and durability.
- Four unshielded twisted-pairs (UTP) and 24 AWG stranded conductors made of 100% solid high-quality copper
- High-quality PVC jackets comply with RoHS environmentally friendly specifications.
- Conform to all TIA/EIA standards and are compatible with 1000 BASE-T, 100 BASE-T, 10 BASE-T, Token Ring, ATM and voice applications.

## Insensitive Fiber Optics Indoor Cable Assemblies

- Bend Insensitive fiber cables are useful for indoor fiber cable installations as they can now be taken around walls, pillars, ceilings and ducts
- Higher bandwidth applications can be confidently deployed using bend insensitive fibers
- A much smaller bend radius, can tolerate tighter corners or being wrapped around cable management equipment
- Commonly used in passive applications (GPON, FTTX and LANs)
- Insensitive fiber patch cable is 100% optically tested for insertion loss and back reflection.
- Available in both simplex and duplex styles

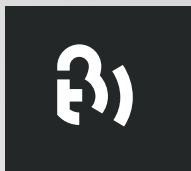

## Fiber Optics Attenuators

- Are frequently used in CATV, LAN and WAN Networks and FTTX
- Designed for optical hardware to reduce the (dB) power
- Ensures low bit error rates and prevent damage to receiving components when the dB power is high
- Complies with RoHS specifications
- Pre-polished zirconia ceramic ferrule with a slight spherical end-face
- Dope fiber technology (Polarization Insensitive)

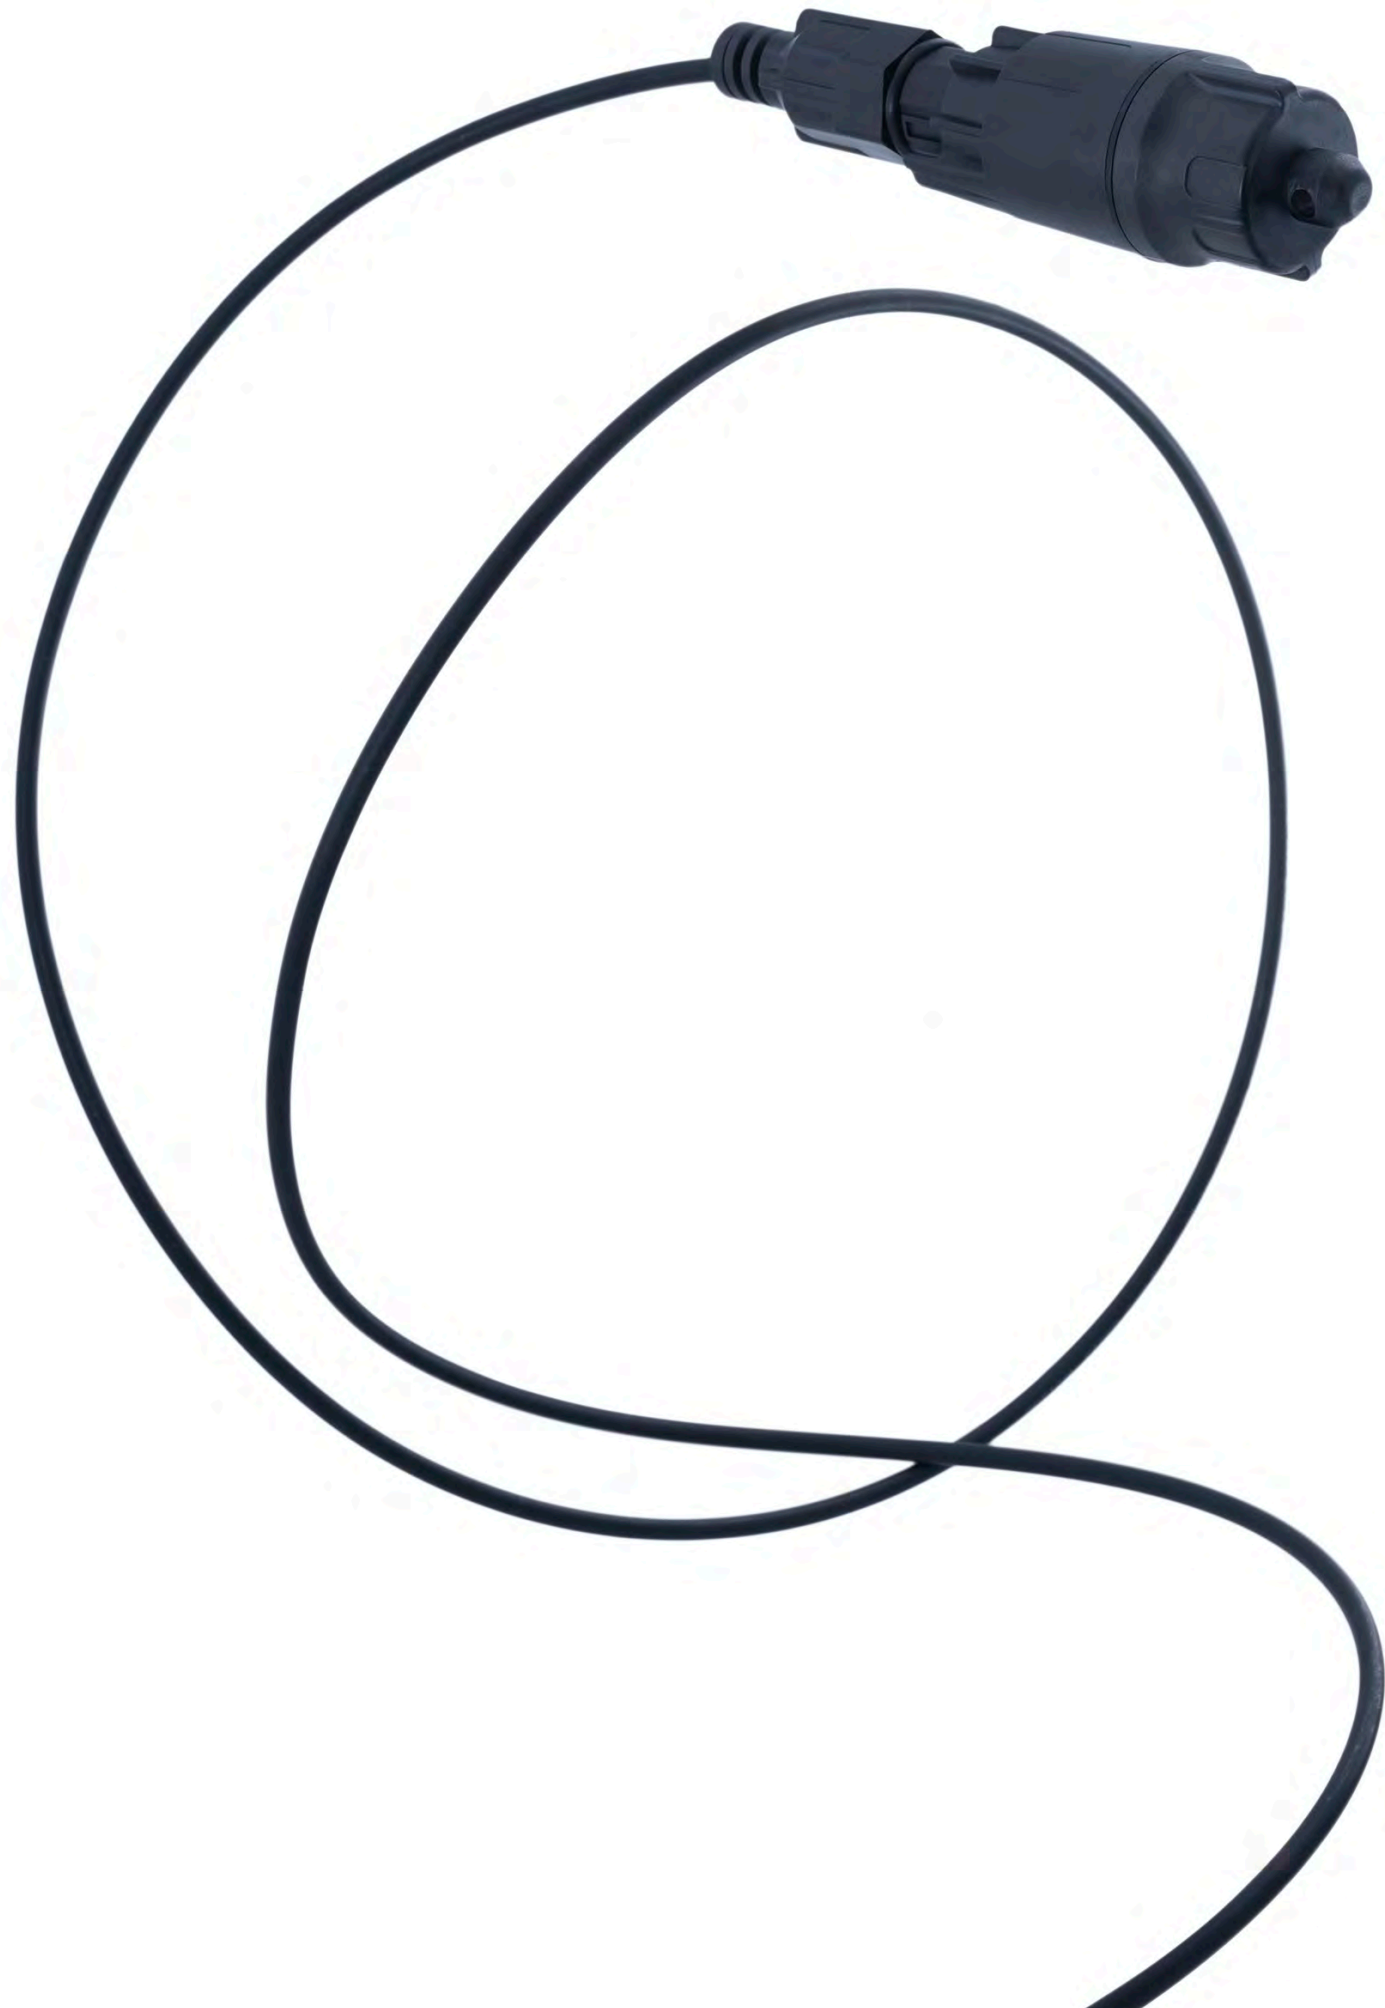

# Fiber Optics Outdoor Cable Connectors

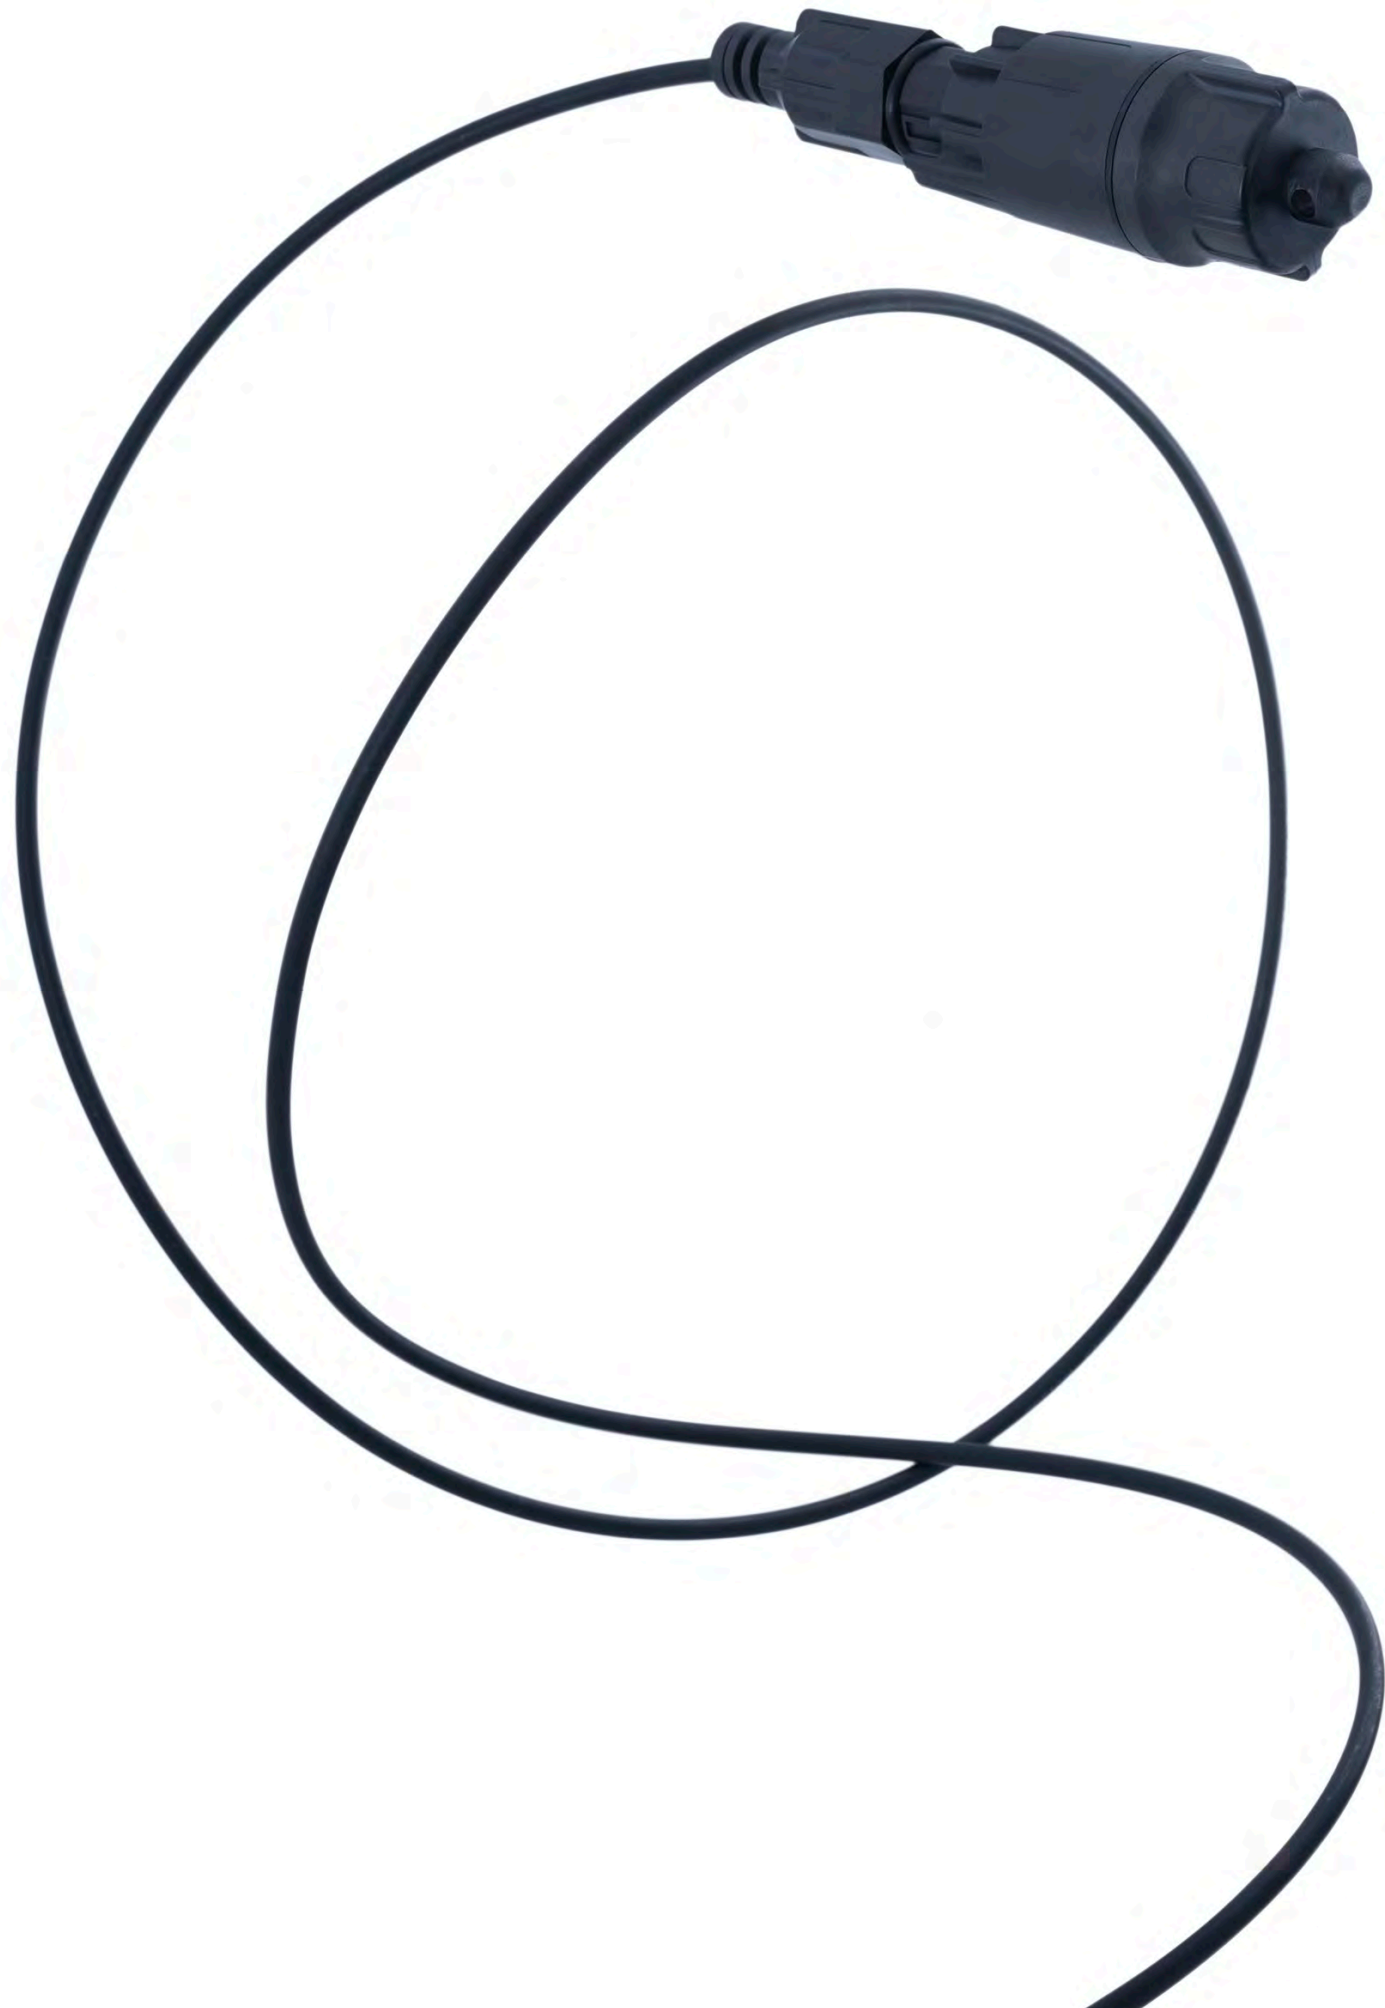

- Easy operation, reliable and cost-effective Installation
- Outdoor assemblies provide a robust and sealed connection solution for fiber to the home (FTTH) connectivity.
- Outdoor waterproof condition
- Meet requirements for outdoor environment conditions and adverse weather conditions.
- Optimal use for Industrial/ Scientific industries including: Telecom and Oil / Gas
- Wide range of locking solutions and several connectors available

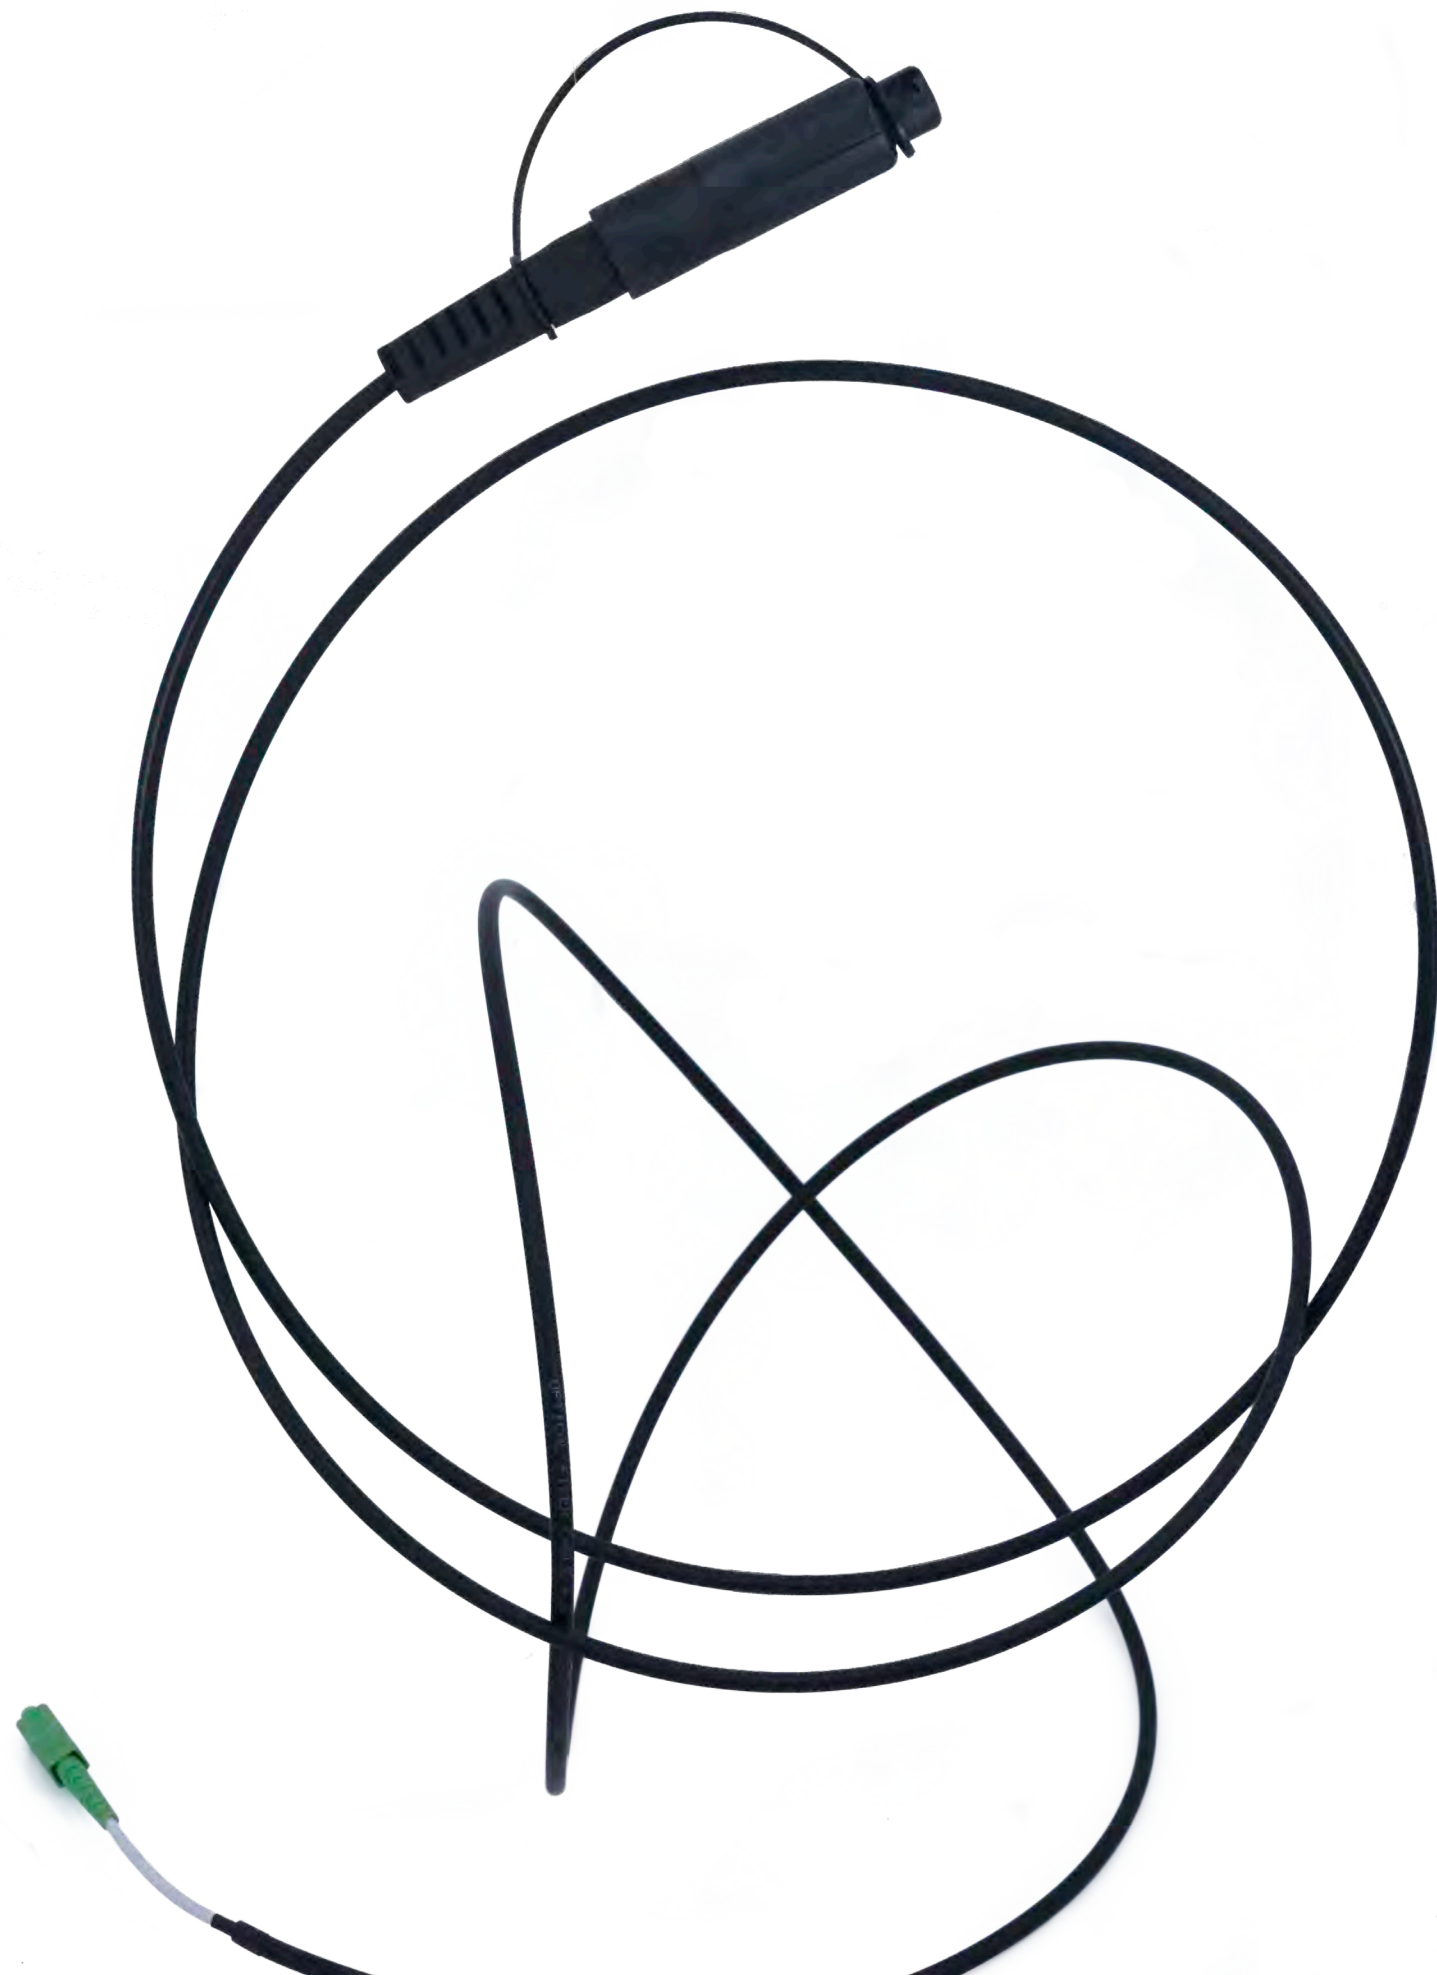

## Fiber Optics Outdoor Cable Connectors IPFX Connector

Applications	Technical Data
<ul style="list-style-type: none"> <li>• Wireless Outdoor Applications</li> <li>• WiMAX and LTE Base Stations</li> <li>• Remote Radio Heads RRH</li> <li>• Industrial Outdoor Applications</li> <li>• Aerospace and Defense</li> <li>• FTTA</li> </ul>	<ul style="list-style-type: none"> <li>• Under tension or 150 n</li> <li>• Protection grade: IP67</li> <li>• Adapter specification: 36 mm x 36 mm</li> <li>• Installation structure: bolt bayonet without tools</li> <li>• Operating temperature: - 40°C ~ + 70°C</li> <li>• Cycle installation number 100 or higher</li> <li>• Available for Single-mode and multimode fiber</li> <li>• Technical standards: iec61300-2-1, iec61300-2-26, iec61300-2-12, iec61300-2-22</li> </ul>
Features	
<ul style="list-style-type: none"> <li>• Open architecture, can be directly access transceiver (SFP),</li> <li>• Low z axis' full floating in the design, can fit a variety of mainstream transceiver on the market</li> <li>• Low fiber cable and connection design of separation of protection, to ensure that the lc connector and SFP perfect connection</li> <li>• Connecting mechanism through specific mechanical feedback, help operator to confirm connection in place, and can be installed in single hand operation</li> <li>• Don't need to open the RRH cabinet, can be directly replace RRH light end equipment</li> <li>• When convenient, fast and secure installation of the bayonet design</li> <li>• Low waterproof, dustproof, and corrosion resistance</li> </ul>
