Luxury Belts Redefined

Nexbelt, The Original Belt with No Holes, introduced a new collection of ratchet-style belts recently that have redefined the category of luxury belts. The Rowland Thomas Collection of belts are handmade in the USA and feature full grain leathers that are imported from the finest Italian tanneries. The leather is embossed, by hand, to replicate snake scales, for the Serpent Collection, a crocodile print, for the Kayiman Collection or a herringbone texture for the Herrington Collection.

The buckles are detailed with classic designs and feature stainless steel hex screws similar to what you'd see on a fine luxury timepiece. The belts will accommodate up to a 45" inch waist and feature a unique ratcheting system called Precise-Fit™. Instead of the typical 1" inch adjustment of a traditional pin-and-buckle style belt, these belts allow the person wearing them to "micro-tune" the belt and adjust it ¼ inch increments, providing the best fit, feel, and fashion available. These belts come in a Premium Presentation Box and a Velvet Travel Bag.

Available in six different designs to compliment your wardrobe collection.

SERPENT COLLECTION - Full grain Italian leather with a special embossed cut to replicate snake scales. The belts are Made in the USA to the highest standards.

KAYIMAN COLLECTION - Full grain Italian calfskin embossed in brown crocodile print with black highlights or black crocodile print with blue highlights.

HERRINGTON COLLECTION - Full grain Italian calfskin embossed in a tan herringbone texture or black herringbone texture.

Available at www.RowlandThomas.com.
