

Immigrants and stress*

Photo: Bigstockphoto.com

What causes stress?

Stress is the body's **reaction*** to change and difficulties. Stress can come from jobs, school, dangers, and family problems. Accidents, sickness, money troubles, **divorce***, war, **natural disasters*** and death of a loved one all cause stress.

Air **pollution*** and **noise pollution*** can cause stress, too. So can watching the evening news on TV!

We actually need some stress. We gladly give ourselves stress by trying to learn new **skills***, trying to win, and trying to reach **goals***.

Immigrants' difficulties

Immigrants have extra **challenges*** and are under extra stress. It is very difficult to move to a new country. Many immigrants have left family members and friends behind in their native country. They **miss*** them. It takes a long time to build new friendships and a new **network*** of **support***.

Some immigrants are here illegally. They may feel **constant*** stress.

They hope **Congress*** will reform the immigration laws and let them stay. So far, Congress has not done that.

Living in a new place is stressful. The brain must learn the **routes*** to home, stores, work, and school. Bodies must **adapt*** to colder or warmer weather.

Photo: Bigstockphoto.com

Money problems can cause stress. Food and rent in the U.S. are expensive. Most immigrants have to take low-paying jobs until they learn English. They may have a hard time finding a job.

Immigrants may live in **crowded*** neighborhoods. They may not be safe from **crime***.

Life in the U.S.A. Shopping for groceries-part 6

Reading nutrition* facts

You need to know three things in order to make good food choices:

1. What **nutrients*** do you need?
2. How much of each nutrient do you need each day?
3. How much of each nutrient is in the food you buy?

Each person is different! This article will talk about what the **average*** person needs.

The average adult who weighs 150 pounds needs 2,000 **calories*** from food each day. People who are very active need more. People who are less active need fewer calories. If you eat more calories than your body can **burn***, you will **gain*** weight.

Our bodies need five kinds of

nutrients: **protein***, **carbohydrates***, **fats**, **vitamins***, and **minerals***. We also need **water** and **fiber***.

Why do we need protein?

We need protein for building and repairing muscles, **organs***, hair, skin, and blood.

Women's History Month

The month of March is Women's History Month. It's a time when people learn stories about women in history and women who are famous today.

Until 1970, there were not many stories about women in the history books. Before 1920, women did not have the right to vote. Earlier than that, women could not own **property***. They could not speak at public meetings.

Women had to **struggle*** to get the right to vote, the right

to own property, even the right to their own children after a divorce. Women were allowed to be teachers, but they could not enter most other **professions***.

Girls could not take classes in shop, auto repair, or woodworking at school. No one went to see girls' sports. The best universities were for men only. Today's history books are now filled with women's stories.

(Read about the first woman on the U.S. Supreme Court on page 7.)

Read Across America

March 3 is “Read Across America Day.” It **celebrates*** the birthday of **Dr. Seuss***. Dr. Seuss's famous *Cat in the Hat* book helped millions of children learn to read.

Schools have special **events*** to celebrate reading. Guests come to schools to read to younger children.

It doesn't matter what language you read. Reading builds ideas, knowledge, and many **skills***. Visit your public library, get a free library card, and borrow books.

Children reading a book © Darrinhenry | Dreamstime.com

Mardi Gras*

The week before Ash Wednesday is special for many Catholics. They **celebrate*** **Carnival*** (*carne vale*: good-bye meat). That's because the period of **Lent*** begins with 40 days of **sacrifice***.

Mardi Gras costumes at Rainbow Harbor, Long Beach, California. © Zepherwind | Dreamstime.com

Traditionally, Catholics did not eat meat during Lent.

In many cities with large French or Spanish populations, Carnival is a **joyful*** time with parties, **costumes*** and parades. The last day of Carnival is *Mardi Gras* [MAR dee grah] (Fat Tuesday.)

The *Mardi Gras* events in New Orleans and other southern cities are famous. Many people go there to take part and enjoy the foods, parties, parades, and excitement.

Ash* Wednesday

March 5 is Ash Wednesday. For Christians, this day marks the first day of Lent. Lent is a **season*** of 40 days (not counting Sundays) before **Easter***.

Catholics and some other Christians go to church on Ash Wednesday. A **priest*** makes the sign of the **cross*** with ashes on their **foreheads***. During Lent, Christians work hard at becoming better persons. They sacrifice some **pleasure***. They eat smaller meals. They do not eat meat on Ash Wednesday and on Fridays during Lent.

The priest at the Annunciation Catholic Church in Washington, D.C. marks the sign of the cross on Catholics' foreheads. The ashes are from burning last year's palms from Palm Sunday. © Richard Gunion | Dreamstime.com February 2, 2012.

in March

Saint* Patrick's Day

March 17 is St. Patrick's Day. Irish **immigrants*** brought this **joyful*** holiday with them when they came to America. There are more Irish people in America than in Ireland! More than 12% of Americans are of **Irish descent***.

The Irish and many other Americans have a lot of fun on St. Patrick's Day. They sing Irish songs. They tell stories about **leprechauns*** and pots of gold. They wear green clothes. They eat green cakes and cookies. They drink green beer. **Traditional*** foods on this day are **corned beef*** with cabbage.

People dress in green with many **symbols*** of Ireland: leprechaun hats, fake gold, and **shamrocks***. Green beer is a favorite drink. Some people drink too much. Bigstockphoto.com

There are parades in hundreds of cities. The biggest Saint Patrick's Day parades are in New York City and Boston.

The Irish invite everyone to be "Irish for a day." Just wear green and have a good time!

Who was Saint Patrick?

Patrick was born in England around 390 C.E.* He became a priest in the Catholic church. The **pope*** sent him to Ireland to teach the Irish about Christianity.

Patrick taught for many years. He **converted*** Irish princes and chiefs to Christianity. Their people became Christians, too. Patrick started churches and trained priests.

There are many **legends*** about St. Patrick. People said that he made snow burn, that he drove the snakes out of Ireland, and that he brought dead people back to life.

Patrick died on March 17, 461 C.E. Many years later, the Catholic church said that he was a saint.

Icon of St. Patrick Bigstockphoto.com

Spring begins

Spring tulips Bigstockphoto.com

The first day of spring is March 20. This is also called the **vernal equinox***. There are 12 hours of daylight and 12 hours of darkness on this day.

Americans will be very glad to welcome spring this year. The winter in most parts of the country has been very cold. Some places in the South usually have warm weather all year round. But this year, the cold and snow reached most of the southern states.

Daylight Saving Time

Daylight saving time begins Sunday, March 9 at 2 a.m. Clocks are set ahead to 3 a.m. Many people set their clocks ahead one hour Saturday night before they go to sleep.

Income tax time

(Word Help for this article is on page 9.)

Americans must pay their **income* taxes*** for 2013 by April 15, 2014. Most people **file*** a **tax return*** before April 15. They want to get a **refund***. They use a special tax return form called the "ten-forty" (1040).

Everyone who works as an **employee*** pays taxes during the year. The **employer*** **withholds*** taxes from paychecks and sends that money to the **Internal Revenue Service*** (IRS).

If the employer did not withhold enough money, the person must pay the taxes they **owe*** by April 15.

You **must report*** your income if you **earned*** more than a certain amount (see page 9). There are good reasons to file an income tax return, *even if you earned less than that.* You may get a refund. You have to file a return to get it.

Photo: Bigstockphoto.com

A person with a low income may also receive **Earned Income Credit***. It's the government's **reward*** for working, even at a low-paying job. You may get American Opportunity Credit if you are a student in **post-secondary school***.

There are two ways to send in an income tax return. Some people send in their tax return by mail. Others use an Internet program to **E-file*** their return.

You can get your tax return

Photo: Bigstockphoto.com

forms (1040 Form) at **IRS.gov**. The form is in English. There is some help at their website in English, Chinese, Spanish, Vietnamese, Korean, and Russian.

An income tax return is a **legal document***. If you send it by mail, sign your name in ink at the bottom of the 1040 form and write the date. Mail the return to the IRS. The IRS has many addresses. Find the address for your state in the 1040 instruction book.

Watch out for tax scams*

Many people use a tax **preparer*** to help them. A tax preparer can save a person from paying too much tax. However, choose your tax preparer carefully. Your personal information is **valuable***. Use a tax preparer you are sure you can **trust***.

If you send in your tax return **electronically***, you will get your tax refund sooner. Your refund will be deposited electronically into your bank account.

The IRS never emails or calls taxpayers on the telephone about their taxes. If anyone does, they are not honest. Do not believe emails you get with a link to a website for help with your tax return.

Do not let someone tell you to give wrong information on your 1040 Form to get a larger return. There is a \$5,000 **penalty*** for giving false information on a tax return.

Do not take an "**instant***" refund from a tax preparer. This is a **loan*** with a very high **interest rate***. Wait for the full amount to come to you in a few weeks.

(Read more on page 8. See a practice **1040 EZ*** tax return form on page 9.)

This is your page

The rainbow

My first job in America was in a factory. At the time my English wasn't good. I worked with people from many countries. My **supervisor*** was an American lady.

One day the supervisor told us to go outside to see the rainbow.

I thought she meant the grocery store called Rainbow Foods. I didn't need anything from the store so I didn't want to go. But everyone went out to see the rainbow, so I followed them.

My supervisor pointed to the sky and said, "Look at the beautiful rainbow!" I had never seen a rainbow before. I'm glad I went outside. I would have missed it.

Against the law

Six years ago I moved from Peru to the United States. One day I picked up the mail from my mailbox. I found two letters for another woman with the same last name as mine. I opened them. They

were for my husband's ex*-wife.

When my husband came home I told

him what I did. He said that in this country it's illegal to open someone else's mail. He told me never to do it again. At the time I was very upset because I had broken the law. Now I just think it's funny.

Special delivery

I had an **appointment*** with my doctor to talk to her. I asked where she was.

A **receptionist*** told me, "Your doctor is in **delivery***. Would you like to wait for her?"

I said, "Yes, I'll wait." I thought that if my doctor was in delivery she was on her way to the clinic. I wondered why someone had to deliver her. Why couldn't she drive to the clinic by herself?

An hour later the receptionist said, "Your doctor is still in delivery. It may take another hour."

I said, "OK. I'll wait because I really need to talk to her." I started to get angry. I wondered why it took so long to deliver my doctor. What kind of delivery service did they use?

I was going to **complain*** when my husband called. I told him what happened. He laughed and told me that *delivery* also means that someone is giving birth to a baby. The doctor was with a woman who was having a baby. I laughed and told the receptionist she could deliver my doctor another day.

A new language

My youngest son was three years old when we came to the United States. He was just beginning to speak some words in Arabic. My husband and I thought that if we sent him to **preschool*** he would learn English faster.

At first he didn't enjoy school because he couldn't understand anything. After a while his teacher told me that she didn't understand some of his stories. She brought her notes and asked me to **translate*** them. When I heard what she said I was **shocked***. This wasn't English. It wasn't Arabic either! He was making up strange sounds.

We both laughed. I think at the time my son thought anything he didn't say in Arabic would be English.

Reneih Alratrou
Plymouth, Minnesota
(Jordan)

Not crazy

When I first came to New York I went for a walk with my friend. Whenever he **sneezed*** the people next to us said, "**Bless*** you." I didn't know what it meant. I

thought they were just crazy people.

Later I moved to Virginia. Whenever I sneezed in school people also said, "Bless you."

I asked my teacher why people say that. She said it means they want God to bless you so you won't get sick. Now I know that in New York, the people weren't crazy. They were kind.

Jaeyong Shim
Fork Union, Virginia
(South Korea)

Homework headache

My son came home from school with his homework. We were supposed to use cards to make words. The directions said to put cards together to make up new simple words. I didn't know if **shuffling*** cards meant to give cards out or mix them up.

The next step was to draw cards from the **deck***. What deck? The only deck I knew was the one outside my house. Then I had two more problems. First the directions said to draw a picture out of something with the letters *a, b, r,* and *t* on the cards. Then it said to put them in the deck. I was completely lost.

The directions got more **complicated***. They were: "If the player has only letter cards or word family cards, he/she has to **discard*** one and draw a new one." I asked my son if he knew what letter cards and word family cards were. He didn't know either.

More confusion came when I read, "Play continues until all the cards have been drawn." I thought this game involved a lot of drawings! I knew something was

wrong. I waited until my husband came home from work to help me.

My husband explained the homework. It was a simple game. You had to pick cards and **combine*** them to make new words. *Deck* was the name for all the cards in a pile. *Draw* meant to pick from the deck. It didn't mean to make a picture. I was **frustrated*** because I couldn't help my child with simple first grade homework.

Fernanda Pimenta
Englewood Cliffs, New Jersey
(Brazil)

Funny and fun

I learned American history in school. I was very interested in Pearl Harbor, Hawaii. My husband was in Hawaii when he was in the Navy. I wanted to share his Navy memories. I asked if we could travel to Hawaii for his next birthday. He asked me why. I said that I wanted to visit Pearl Harbor and the other famous city *Honohoho*.

He laughed and kept repeating *Honohoho*. I didn't know why he was laughing.

Finally, he said, "Honey, it's not *Honohoho*. It's called *Honolulu*."

Then I understood that my English was funny. My English wasn't perfect but it **entertained*** my husband.

Idiom Corner

Illustrations by Dave Nicholson

Have you heard people use these idioms?

1. an ace* up one's sleeve

a fact that a person keeps hidden, until it is needed

Boris didn't tell his boss that his dad was a Congressman. He kept that information as *an ace up his sleeve*.

Willy understood English but he didn't let anyone know. This was *an ace up his sleeve*.

2. a nest egg

money saved for a secure* future

Jan saved his money carefully. He wanted to build a *nest egg* to buy a house after he got married.

You can build a nice little *nest egg* for your old age, if you just save a few dollars every week.

3. to be right on target*

to be exactly correct about something

Dan's idea for the group's project *was right on target*.

Ho's answer to the question *was right on target*.

4. a black sheep

a person who has done things the family may be ashamed of

Jessica was the *black sheep* of the family. She ran away to join a circus.

My Uncle George was the *black sheep* of the family. He was often in trouble with the police.

Immigrants and Stress

(continued from page 1)

Culture shock*

Each day there are worries about new things: *How do we use the stove? The washing machine? A public telephone? What do we do when the toilet runs over? How will the children learn in an American school? How do we get a driver's license? Are our documents* OK? Will any of our friends or someone in our family be deported*? What should we do or say? What should we wear?*

Some uneducated Americans may show **prejudice*** against immigrants. They may have negative feelings about the looks, dress, race, religion, or language of immigrants.

An immigrant has to face new information and new **situations*** every day. It is hard to know if he or she is making a mistake in manners. Some of the manners of Americans may seem **rude***.

Language shock

It is difficult to learn English. It can take many years. Without English, immigrants can feel **unconnected*** to their new neighbors and new **society***. **Misunderstandings*** happen every day, and cause a lot of problems. "Excuse me-can you say that again, please?"

Children and stress

Immigrant children often have a difficult time in school. They may feel **frustrated*** because they can't understand the lessons. They may feel lonely because they can't

make friends. School work may take them many hours each evening. Parents

cannot help with homework or explain school rules to them. The children feel **ashamed*** when they get bad report cards.

Dangers

There are dangers in American society. Children must learn not to talk to strangers. They must learn to "say 'NO' to drugs." Parents cannot easily **advise*** their children. The parents do not know what to expect, either.

Children may learn English more quickly than their parents. They may learn new habits and

behaviors from TV or classmates. They may choose **values*** that are different from their parents' values. This can cause **disagreements*** between parents and children.

Too much stress

Too much stress can be like a slow **poison*** for our bodies. Stress can cause headache, backache, **anxiety***, overeating, upset stomachs, sleepless nights, tiredness, sadness, and **irritability***. Stress can cause high blood pressure and heart **palpitations***. It can lower a person's **ability*** to fight illness.

Stages* of adjustment*

Newcomers may go through different stages of adjustment to their new life. At first it may seem wonderful to be in the United States. For some people, it is a dream come true.

Then the stress starts to add up. There are too many problems to handle. Learning English seems impossible. The whole family is always tired.

Then there may be a period of **depression***. The newcomers may think it was a mistake to come to the U.S.

After some years, life starts to look better. The **rewards*** for hard work start to come in. The immigrants become more comfortable. They can speak English. They feel that they are a part of America.

Managing stress

We cannot make stressful situations go away. But we can learn to manage ourselves better so stress does not hurt us.

- Take care of your body. Eat healthful foods. **Avoid*** American **junk foods*** with too much sugar, salt, and fat. Avoid **caffeine*** and alcohol.

- Get some exercise each day, or at least three days a week.

- Get enough sleep. You will need more sleep the first months of living in a new place. Go to bed at a regular time.

- Improve your English. Good **communication skills*** will **reduce*** your stress.

- Join a church, temple, club, or other **support*** group.

- Decide which things in life are most important to you. Make time to take care of these top **priorities***: health, family, job, home, education.

- When you have a problem, don't keep it inside yourself. Talk about it with a family member or a friend you can **trust***.

- Be extra **patient*** with your family. Show your love.

- Don't push yourself past your **limits*** all the time.

- Remember that **basic*** human **needs*** are really very simple. We need simple food; **shelter*** from rain and cold; something to wear; freedom from danger; work; love; and a chance to learn.

- Don't **compare*** your life with the lives of rich people. Compare your life to the lives of people hundreds of years ago. They had no electric lights, no stoves, no machines, no TV, no refrigerators, no pipes with running water, no bathrooms. That way, you can see how lucky and rich you are.

- Talk to your family about **goals*** for the future. *What do you plan to do next year? In five years? In ten?* Keep a bright picture in your mind. This will help you get through many difficult days.

- Write down all the things you have **accomplished***. This will help you see how far you have come.

- Make time to have some fun and **relax***. Bring beauty into your home with art and music. Sing, dance, tell jokes, laugh.

- Feed your spirit. **Meditate*** or pray. Read books that **inspire*** you. Go for walks in the park or the woods. Remember that the moon, the sun, and the stars belong to everyone. Take time to smell the flowers.

Heroes and History

Sandra Day O'Connor, First woman on the Supreme Court

“We don’t hire* women attorneys*”

Sandra Day was born in El Paso, Texas, on March 26, 1930. She grew up on her family’s **cattle ranch*** in Arizona. She learned to shoot guns and ride horses before she was eight years old.

She married John Jay **O’Connor** in 1952. That year she graduated from Stanford Law School with high honors. Nevertheless, she had trouble getting a job as an attorney. The men in her law classes got high-paying jobs with large companies. Sandra Day **O’Connor** applied to more than 40 law **firms***. Not one of them would **interview*** her. They didn’t hire women attorneys.

“I’ll work without pay”

Finally, she offered to work for no **salary***. That got her a job as a **deputy*** county attorney in San Mateo, California. She learned how hard it was for a woman to get a **professional*** job. This experience made her go into **politics***. She wanted to help change things.

O’Connor served in the Arizona State Senate from 1969-1975. She became the first woman to serve as its **Majority Leader***. In 1975 she was elected to the Maricopa County Superior Court. In 1979 she was a judge on the Arizona **Court of Appeals***. She served on the Court of Appeals until 1981.

A phone call from the president

That year, she got a call from President Ronald Reagan. He wanted to **appoint*** her to the U.S. **Supreme Court***. She was **shocked***.

President Ronald Reagan and Justice Sandra Day O’Connor walk outside the Supreme Court after she was sworn in September 25, 1981. AP Photo

No woman had ever been on the Supreme Court. She would be the first! The U.S. Senate approved the appointment on September 21, 1981.

25 years on the Court

O’Connor served as a **justice*** on the Supreme Court for 25 years. At first her decisions were on the **conservative*** side. Later she became more **moderate***. She was a “**swing vote***” on **abortion*** as well as other difficult **cases***.

Not everyone agreed with her **opinions***, but she was **well-respected***. Everyone *did* agree that she was hard working, honest, and fair.

Sandra Day **O’Connor retired*** from the Supreme Court in 2006 to take care of her husband. He had **Alzheimer’s*** disease. Her husband **passed away*** in 2009.

A new mission*: civics education

Now **O’Connor** has a new mission. “Americans don’t know enough about **civics***,” she said. “They can’t be good citizens if they don’t know how the government works. Learning about citizenship is just as important for American children as learning multiplication or how to write their names.... Every young person needs to learn how our government works at the national level, at the state level, and at the **local*** level. They need to know how they can be part of it.”

O’Connor founded **iCivics.org***, in 2006. The iCivics website uses games to make learning about government more interesting. It’s completely free for teachers and students. Her website, iCivics.org, works with the Boys & Girls Clubs. Together, they are able to reach a large number of young people across the country.

O’Connor says, “Liberty **depends*** on citizens who *understand* the meaning of our Constitution and its **guarantees***. This understanding will keep liberty in their hearts.”

O’Connor has won many **awards***. In 2009, President Barack Obama gave her the Presidential Medal of Freedom. Arizona State University named its law school after her. The **federal*** courthouse in Phoenix,

Arizona is named in her **honor***.

The National Cowgirl Museum and Hall of Fame in Fort Worth, Texas has an **exhibit*** about her: “The Cowgirl Who Became a Justice.”

The W-2 Form

(Word Help for this article is on page 9.)

Did you get a **W-2 Form*** from an employer? You'll need it when you file your income **tax return***. The W-2 Form tells how much money you earned with an **employer*** last year (See Box 1). It tells how much money your employer **withheld*** for **federal*** tax, **Social Security*** tax, **Medicare*** tax and State Income tax. (See boxes 2, 4, 6, and 17.)

Look at your W-2 carefully. Is your name spelled correctly? Is your address correct? Is your Social Security Number correct? Are your **wages*** correct? If there are any errors, tell your employer to send an **amended*** W-2 form to you and to the IRS.

Practice **filling out*** a simple income tax return, on the Form 1040 EZ on page 9. Use the information from this W-2 for Nathan Niceman below. The Word Help for this page is on page 9, too.

Ask a Speech Coach

by Gene Zerna

Here are /sh/ words in sentences. Hold the /sh/ for a longer time as you say them. Then repeat the sentences at normal speed.

She shall shampoo her hair in the shower.

I have to wash my shirt.

The fish is fresh.

I brushed my shoes.

The motion of the ocean makes me feel sick.

Patricia gave me a dish of mushrooms.

For the /zh/ sound, make the /sh/ sound but add vibration of the vocal cords. Feel the strong vibrations against your teeth and the tip of your tongue. If you don't feel your teeth vibrating, you are not making a good /zh/ sound.

Feel the /zh/ vibrations as you say these words. **Sustain*** the /zh/ sound the first time. Feel a strong vibration for the /zh/. Then read the words again at normal speed:

- | | |
|-----------------|-------------------|
| Asia | Persia |
| measure | pleasure* |
| treasure | vision |
| usual | casual |
| confusion | decision |
| division | explosion |
| television | collision* |
| corsage* | garage |
| massage* | rouge* |

Try these sentences:

I do my usual exercises in the garage every day.

There was an explosion after the collision.

The women from Asia wore corsages.

It gives me pleasure to watch television.

The sounds /sh/ and /zh/

It takes an extra effort to make the /zh/ sound so it is different from the /sh/ sound.

The /sh/ is a sound like a far-away wind. Listen to a native-English speaker, and watch his or her mouth. Gently press your teeth together. Push air out quietly. There is no **vibration*** of the **vocal cords***.

Hold the /sh/ sound in the following words the first time you say them. Then repeat the words at normal speed:

- | | | |
|--------|----------|------------|
| she | short | shirt |
| shoe | shoulder | shall |
| shark | shovel | shower |
| nation | motion | ocean |
| wash | fish | brush |
| dish | rush | punish |
| crash | mushroom | Washington |

Who must pay income taxes?

A **single*** person under age 65 who **earned*** \$10,000 or more in 2013 must **report*** his or her income to the government. This is called **filing*** an income **tax return***. Married **couples*** under 65 who earned \$20,000 or more must file. Married couples over 65 who earned \$22,400 or more must file.

The income tax return is on a Form 1040. There are three kinds. The simplest one is the 1040 EZ. It has just one page. Taxpayers can use the one-page EZ form if they:

- are under age 65.
- have **taxable*** income under \$100,000.
- **claim*** no **dependents***.
- have no **adjustments*** to income (such as **contributions*** to an **IRA*** or a **401K***).
- have income only from **wages***, **salaries***, **tips***, scholarships, or **unemployment compensation***.
- earned less than \$1,500 of **taxable interest***.

Other taxpayers will need to use Form 1040 or 1040 A. They have

WORD HELP for Income tax articles and forms

1040 EZ *noun*. A one-page document for completing an income tax return.
401K *noun*. A retirement savings plan.
accurate *adjective*. True and correct.
adjusted gross income *noun phrase*. Income after things were subtracted.
adjustment *noun*. Things added or subtracted.
amended *adjective*. Changed.
applicable box *noun phrase*. A little box to mark next to your correct answer.
attach *verb*. Put together; staple or clip.
calculate *verb*. To add, subtract, divide, or multiply numbers.
check *noun*. Make a mark (✓) in a box.
claim *verb*. To say (or write) that one has dependents or expenses.
combat pay *noun phrase*. Pay for a soldier, etc., during any month served in a combat zone (Afghanistan, etc.)
contribution *noun*. An amount of money given to a retirement fund.
couple *noun*. Two people, married.
deduction *noun*. An expense that can be subtracted from one's income.
dependent *noun*. A child, spouse, or disabled person that a taxpayer supports.
directly deposited *verb phrase*. Electronically transferred from one bank account into another bank account.
discuss *verb*. To talk about.
earn *verb*. To make money from working.
earned income credit *noun phrase*. Money the government gives to low-income workers.
E-file *verb*. To send something in an email, or submit it electronically.
electronically *adverb*. Using the Internet to send information.
employee *noun*. A person who works, following instructions of an employer.
employer *noun*. A person who gives someone a job and pays them.
enclose *verb*. Put into an envelope.
federal *adjective*. National (government)
file *verb*. To send in information.
fill out *verb phrase*. To write

two or more pages. Special forms called **schedules*** can be added to the 1040 form. You can print these out from **IRS.gov**. These are some examples:

- Schedule A: to **itemize*** expenses

- Schedule B: to report interest income
- Schedule C: for business income

The government lets a single taxpayer subtract a standard

deduction* of \$6,100 from his or her income. If people have more **tax-deductible expenses***, they can itemize expenses on Schedule A. They will get a larger deduction from their income before **calculating*** their taxes.

Form 1040EZ		Income Tax Return for Single and Joint Filers With No Dependents (99)		2013		OMB No. 1545-0074		
Your first name and initial		Last name		Your social security number				
If a joint return, spouse's first name and initial		Last name		Spouse's social security number				
Home address (number and street). If you have a P.O. box, see instructions.						Apt. no.		
City, town or post office, state, and ZIP code. If you have a foreign address, also complete spaces below (see instructions).						Presidential Election Campaign Check here if you, or your spouse if filing jointly, want \$3 to go to this fund. Checking a box below will not change your tax or refund. <input type="checkbox"/> You <input type="checkbox"/> Spouse		
Foreign country name		Foreign province/state/county		Foreign postal code				
Income	1	Wages, salaries, and tips. This should be shown in box 1 of your Form(s) W-2. Attach your Form(s) W-2.					1	
	2	Taxable interest. If the total is over \$1,500, you cannot use Form 1040EZ.					2	
	3	Unemployment compensation and Alaska Permanent Fund dividends (see instructions).					3	
	4	Add lines 1, 2, and 3. This is your adjusted gross income.					4	
	5	If someone can claim you (or your spouse if a joint return) as a dependent, check the applicable box(es) below and enter the amount from the worksheet on back. <input type="checkbox"/> You <input type="checkbox"/> Spouse If no one can claim you (or your spouse if a joint return), enter \$10,000 if single; \$20,000 if married filing jointly. See back for explanation.					5	
	6	Subtract line 5 from line 4. If line 5 is larger than line 4, enter -0-. This is your taxable income.					6	
Payments, Credits, and Tax	7	Federal income tax withheld from Form(s) W-2 and 1099.					7	
	8a	Earned income credit (EIC) (see instructions).					8a	
	b	Nontaxable combat pay election.					8b	
	9	Add lines 7 and 8a. These are your total payments and credits.					9	
10	Tax. Use the amount on line 6 above to find your tax in the tax table in the instructions. Then, enter the tax from the table on this line.					10		
Refund	11a	If line 9 is larger than line 10, subtract line 10 from line 9. This is your refund. If Form 8888 is attached, check here <input type="checkbox"/>					11a	
	b	Routing number		Type: <input type="checkbox"/> Checking <input type="checkbox"/> Savings				
	d	Account number						
12	If line 10 is larger than line 9, subtract line 9 from line 10. This is the amount you owe. For details on how to pay, see instructions.					12		
Third Party Designee	Do you want to allow another person to discuss this return with the IRS (see instructions)? <input type="checkbox"/> Yes. Complete below. <input type="checkbox"/> No							
Sign Here	Under penalties of perjury, I declare that I have examined this return and, to the best of my knowledge and belief, it is true, correct, and accurately lists all amounts and sources of income I received during the tax year. Declaration of preparer (other than the taxpayer) is based on all information of which the preparer has any knowledge.							
Joint return? See instructions. Keep a copy for your records.	Your signature		Date	Your occupation		Daytime phone number		
	Spouse's signature. If a joint return, both must sign.		Date	Spouse's occupation		If the IRS sent you an Identity Protection PIN enter it here (see inst.)		
Paid Preparer Use Only	Print/Type preparer's name		Preparer's signature		Date		Check <input type="checkbox"/> if self-employed	
	Firm's name		Firm's EIN		PTIN			
	Firm's address		Phone no.

tax-deductible expense *noun phrase*. Can be subtracted from one's income before calculating taxes.
tax return *noun phrase*. The document a taxpayer uses to report income and taxes.
third party designee *noun phrase*. A person you say may talk to the IRS about your tax return.
tips *noun, plural*. Money paid to a waiter, cab driver, etc. for service.
trust *verb*. To be sure a person is honest.
unemployment compensation *noun phrase*. Money paid by the state to people who have lost their jobs.
valuable *adjective*. Important, precious.
wages *noun, plural*. Money paid per hour to a worker.
withhold/withheld *verb*. Keep money from of a person's pay and send it to the government for taxes.
W-2 Form *noun*. A statement with an employee's earnings and withholdings for the year.

Reading nutrition facts

(continued from page 1)

How much protein do we need?

It **depends*** on your age, sex, weight, and state of health. Some doctors say that a person who weighs 150 pounds should get **at least*** 55 **grams*** of protein each day.

Where do we get protein?

We get protein from eggs, milk, cheese, yogurt, fish, chicken, meat, beans, **tofu***, nuts, seeds, and peanut butter. We get some protein from **grains*** and vegetables, too.

Why do we need fat? How much do we need?

Fat is important in our **diet*** for our brains and **nervous system***. There are “good fats” and “bad fats.” **Transfat*** that is in “**partially* hydrogenated*** oil” is not healthy. Fats such as olive oil, peanut oil, flax seed oil, and omega 3 fats are OK. Some experts say “30% of our day’s calories should come from fat.” This is between 30 and 100 grams of fat.

What foods have carbohydrates?

Carbohydrates give us energy to move our muscles. Good carbohydrates are in vegetables, fruits, and **whole grains***. There are carbohydrates in sugar, white bread, cookies, candy, and desserts, too. However, these sugary foods are called “**empty-calorie*** foods.” They do not have many useful nutrients in them.

Why do we need calcium*?

Calcium is an important **mineral***. This builds bones and teeth, and helps our nervous system. We need different amounts of calcium at different ages. This can be from 1,000 to 1,500 **milligrams*** per day. We can get calcium from green leafy vegetables, broccoli, fruit, salmon, beans, tofu, milk, cheese, and yogurt.

Do we need sodium?

Sodium is a mineral in salt. We should not have too much sodium. Some experts say we should have no more than 1,500 to 2,400 milligrams (mg) per day.

What is fiber?

Fiber is not a nutrient. It comes from the part of vegetables, fruit, beans, and whole grains that are not **digested***. Fiber helps our **digestive tract*** move food so it doesn’t stay inside us too long. We need about 28 grams of fiber in our food each day.

Vitamins

Our bodies need vitamins for **optimum*** health. The government has set a **recommended* daily allowance*** of vitamins. Some doctors recommend larger amounts of vitamins to help the body heal from disease.

We can get some of our vitamins from a **well-balanced*** diet of fresh foods. Many people take vitamin **supplements*** to be sure they get enough.

Many colors on your plate help you **balance*** your meals. Vegetables should be 3/4 of the plate. A protein **source*** should be 1/4 of your plate. Bigstockphoto.com

Let's talk about it

Immigrants and Stress (pages 1 and 6)

- What is stress?
- What stresses do you feel every day?
- Tell ten ways an immigrant might feel stress.
- Is all stress bad?
- What culture shock have you experienced?
- What happens with too much stress?
- What are some stages of adjusting to a new place?
- What stage are you in?
- Tell 10 things a person can do to lower stress.
- Tell the meaning of these words: *natural disaster, pollution, challenge, adapt, stage, situation, values, adjustment, reward, junk food, reduce, basic, shelter, patient, compare, meditate, inspire.*

Reading nutrition facts (pages 1, 10, and 11)

- What are five nutrients the body needs?
- How much protein does a 150-pound person need?
- What foods have a large amount of protein?
- How many calories does an average person need?
- Why do we need calcium? What are some good sources of calcium?
- Why do we need carbohydrates? What are some sources of good carbohydrates?
- What are "empty-calorie foods?"

- Why do we need fat each day? How much?
- Tell the meaning of these words: *nutrient, calorie, gram, fiber, serving, trans fat.*

Events in March (pages 2 and 3)

- Explain what this means: "March comes in like a lion and goes out like a lamb."
- What is the purpose of Women's History Month?
- On what day do Americans turn their clocks ahead?
- What is the purpose of Daylight Saving Time?
- Is there changing of the clocks in your home country? When is it?
- Who was Saint Patrick? Who celebrates St. Patrick's Day?
- What is a legend?
- What are some legends about St. Patrick?
- Does your country have a special saint or hero? Who is it? What are some legends about that person?
- When is the first day of spring? What are some signs of spring in your area?
- When does spring come in your home country? Do you have any special traditions for the first day of spring? Tell about them.
- What is the purpose of "Read Across America Day?"
- Why is it important to read? What books have you read recently?
- By when must people in the U.S. file an income tax return?

- How does a person get a refund if too much tax was withheld from his or her paycheck?
- How do people pay taxes in your home country?
- What are some good reasons for paying taxes?
- Tell the meaning of these words: *profession, property, struggle, skills, Lent, forehead, legend, leprechaun, saint, shamrock, convert, gentle.*

This is your page (page 4)

- Have you seen a rainbow?
- What makes a rainbow?
- What does "Bless you" mean? What do people say in your home country when someone sneezes?
- Have you lived with a small child who was learning language? Tell about it.
- What games have you played while learning vocabulary or learning to read?
- Tell the meaning of these words: *supervisor, receptionist, delivery, complain, shuffle, deck, discard, frustrated, sneeze, bless you.*

Heroes and History (page 7)

- Why was Sandra Day called the "cowgirl?"
- What problem did she have when she graduated from law school?
- Why was she surprised when President Reagan appointed her to the Supreme Court?
- How long did she serve on the Supreme Court? Why did she retire?

Answers to Crossword Puzzle

- What is O'Connor's "new mission"?
- What is civics? Why is it important to learn about it?
- How do students learn about civics in your home country?
- Tell the meaning of these words: *attorney, interview, salary, politics, well-respected, award, Alzheimer's.*

Filing a tax return (pages 3, 8, and 9)

- Who must file a tax return?
- Why would anyone else also want to file a tax return?
- How does a person report his or her income?
- Who can use the tax return Form 1040 EZ?
- What is a schedule?
- Tell the meaning of these words: *file, report, withhold, IRS, owe, claim, dependent, deduction, instant, IRA, occupation, refund, scam, valuable, tax preparer, interest, penalty, signature.*

Teacher's Guide and tests available free at elizabethclaire.com

WORD HELP

Some of the words below have many meanings. We give only the meanings you need for this month's newspaper.

ability *noun*. Power, skill.
abortion *noun*. The ending of a pregnancy.
accomplish *verb*. Achieve a goal; reach a new level.
ace *noun*. The highest card in a deck of playing cards.
adapt *verb*. Change to fit into a new situation or environment.
adjustment *noun*. Becoming comfortable in a new place.
advise *verb*. To suggest the way to do something.
Alzheimer's disease *noun phrase*. Serious loss of memory.
anxiety *noun*. A state of fear that bad things will happen.
appoint *verb*. To name a person to a job.
appointment *noun*. 1. A date to meet at a certain time. 2. The naming of a person to a job.
ash *noun*. The soft gray remains after something has burned.
ashamed *adjective*. Feeling embarrassed and bad.
at least *prepositional phrase*. Not less than.
attorney *noun*. Lawyer.
average *noun/adjective*. In the middle or between extremes.
avoid *verb*. To stay away from.
award *noun*. A prize or honor for doing something well.
balance *verb*. To have the right amount of each thing.
basic *adjective*. Fundamental; underlying; important.
