Book 4: Vowels Part I

To the teacher: Each unit presents one or more “long vowel” sounds with the most common spellings of these sounds. Illustrations of common examples help develop vocabulary, spelling, and auditory and visual recognition. The long vowels are contrasted with each other. A conversation and a song or chant are included in each unit for memorization and sight reading of whole language. Concepts of rhyming are presented and practiced. A *Teacher’s Guide* with answer pages, and two audio CDs for this book are available.
