

The **RAGING KALE** shines as a low-profile fixture for indoor and vertical farming. With an IP66 waterproof rating, wireless connectivity and patented optics, the Kale is the perfect solution for your early-stage growing needs. Designed in collaboration with some of the most demanding botanists, the Kale is the go-to fixture when you need a robust, powerful light at an affordable price.

4'x3' canopy = 537 average PPFD@12" Height = 21 watts/sf

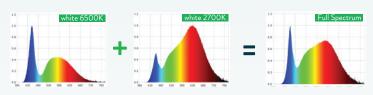

## LIGHT DELIVERY

Our patented optics allow plants to see equal intensity light from all angles (similar to sunlight), prevent hot/burned spots and result in a larger growing surface with more density below the canopy. #GrowDeep

## **FULL POWER SPECTRUM TUNING**

The Raging Kale is the first light that can morph into almost anything you need. Kale's are equipped with a cool white (6500K) channel and a warm white (2700K) channel, each with 768 LEDs or over 1,500 in total. With 250 watts of power on-board, you decide how to move that power around to meet your plants' lighting needs. Keep your sunrises cool and your sunsets warm without any loss of power.

POWER: 250w

**INPUT VOLTAGE:** 120v - 277v or 347v - 480v

**AMPS:** 120v-2.1 / 208v-1.2 / 277v-0.9 / 480v-0.52

POWER FACTOR: >0.95 **CABLE MGMT:** Yes

**DIMENSIONS:** 46" x 6" x 1.5" WEIGHT: 12 lbs.

THERMAL MANAGEMENT: Passive - with active monitoring

WATERPROOF SEALING: IP66 Rating (entire light fixture)

CERTIFICATIONS / TESTING: UL, FCC, RoHS, CSA

WARRANTY: 5 years

TUNABILITY: 2 color channels with \*NEW\* full power spectrum tuning

SPECTRUM: Full spectrum white, 6500k (cool) and 2700k (warm)

**SECONDARY OPTICS:** Conic 120 (patented 120° secondary lenses)

**CONTROL:** full digital control of spectrum, recipes and scheduling

FIXTURE (PPF): 583 µmol/s EFFICACY: 2.33 umol/j

PPFD (suggested use): up to 537 µmol/m2/s over a 4'x3' canopy @ 12"

MAX COVERAGE AREA: Veg/Clone = up to 5'x4' Flower = up to 4'x2'

P/N: RKV250 Raging Kale MAX AMBIENT TEMP: 30°C
