

KRONO

KRONO

KRONO

Krono offers a fast delivery speed together with the already well-established Necta technology. Its patented compact mixers produce excellent drinks, mixed well to give the perfect cr me. For Krono, productivity is also a strong point: the machine produces a 9oz quality white coffee or chocolate drink in around 14 seconds! Krono is ideal for offices, meeting rooms, bars/hotels, professional studios; in fact it can be used in a wide variety of environments.

Krono comes with an inbuilt chip card reader that allows you to define the machine parameters and collect statistics, as well as manage your ingredient supply to the customer. The chip cards are programmed using a chip card reader connected to a PC, and allow several modes of operation.

There are a number of different ways to programme the chip card including:

- ONETIME Card - This card puts a number of credits on to the machine; the credits are refreshed by inserting another card.
- MULTINS Card - This is the same as the ONETIME Card but you have the ability to insert the same card to regenerate the credits a number of times.
- CREDIT Card - This card has a number of credits programmed to the card and the credits are deducted when the card is inserted into the machine.

The speed is Krono, the quality is Necta.

DIMENSIONS

Height	580 mm
Width	300 mm
Depth	365 mm
Delivery area	150 mm
Depth with door open	600 mm
Weight	16 kg
Selection type	Direct

TECHNICAL DATA

Voltage	220/240 V
Frequency	50/60 Hz
Max Power	2750 W

DRINKS MENU

Americano
Caffe Latte
Cappuccino
Caffe Mocha
Chocomilk
Hot Water

CHARACTERISTICS

No. selections	6
Canisters	3
Versions	Plumbed In or Tank Fill
Water tank capacity	3.6 L
Drink sizes	7 oz/9 oz

CANISTER CAPACITIES

Milk	0.4 kg
Chocolate	0.75 kg
Instant coffee	0.35 kg

Easy filling of canisters
