POWERSMART3

Saving Electricity

The PowerSmart3 ECO Sensor turns the Boiler off (Sleep Mode) when the office lights are off. This can save approx £40 pa in Electricity. There is an on/off switch to turn the ECO sensor off at the back.

Reduced Carbon Footprint

Sleep Mode would at the same time save 175kg of carbon.

Reducing Scale Build Up

Another benefit of Sleep Mode is that the unnecessary boiling during the night reduces the build up of scale and extends the life of the Boiler between de-scaling times.

Low Height

The PowerSmart3 is only 43.6cm tall to fit comfortably under overhanging kitchen cupboards.

Capacity

17 Litres/90c + hourly output, 5.7 litres/90c + instant draw off.

Mains Connection

1.5m food quality hose with 3/4" BSP connection.

Power Supply/Consumption

220v, 50/60Hz - 1.85 KWH consumption in stand-by mode.

Dimensions/Weight

Width 215mm	Length 345mm
Height 436mm	Weight 9.8 Kg
