

## LIQUID WAX REFRESHER

Specifically developed for oiled and waxed wood surfaces!

3015 Clear

1 APPLICATION

### PRODUCT DESCRIPTION

Liquid Wax Refresher is especially designed for occasional refreshing and maintenance of wood floors treated with Osmo Polyx®-Oil, as well as furniture and other interior oiled and waxed surfaces. The Osmo Liquid Wax Refresher regenerates, is easy to use, and allows a quick and economical application.

### RECOMMENDED USE

Osmo Liquid Wax Refresher is ideal for refreshing all wood surfaces treated with Osmo Polyx®-Oil.

### INGREDIENTS

Based on synthetic and natural waxes (carnauba wax, beeswax). Detailed declaration of ingredients available upon request.

### TECHNICAL DATA

Specific gravity: 0.95 – 1.05 g/cm<sup>3</sup>

Viscosity: viscid/ creamy

Odor: faint/mild (wax-like), odorless after drying

pH value: 8.0 – 9.0

### STORAGE

Up to 2 years and longer if container is kept dry, closed tightly and stored at temperatures between 41 and 95 °F. Do not expose to frost during transport!

### PREPARATION

Wood surface must be dust-free and dry. To do this, normally a dust mop, a mop or a vacuum cleaner is suitable. For easy cleaning and maintenance, Osmo Cleaning Kit for Floors (Dust-Mop, Micro-Mop Plush and Active Fibre Cloth) is highly recommended.

To clean high-traffic and dirty floors, for example public interiors, use Osmo Micro-Mop (with a mixture of Osmo Wash and Care and water) and afterward buff dry.

### DIRECTIONS FOR USE

Shake well before use. First clean the wood surface with a cloth, mop or vacuum cleaner as usual. Areas treated with Osmo Polyx®-Oil can be cleaned with a damp cloth (add Osmo Wash and Care to the cleaning water). Wipe dry to avoid moisture penetration into the joints. Before using the Liquid Wax Refresher, dilute with clear water in ratio 1:1 (1 cup water : 1 cup Liquid Wax Refresher). Mixture can be applied easily to flooring with a household pump spray bottle.

Work in sections of 30-40 sq. ft. Afterwards spread mixture out evenly with a damp mop or cloth. Make sure not to use too much water. The floor must only be left damp, not wet, otherwise there is a risk of over application.

### CLEANING OF TOOLS

Immediately after use, with soap and water.

### DRYING TIME

approx. 30-40 minutes (normal climatic conditions, 73 °F / 50 % rel. humidity). Lower temperatures and / or high humidity can increase the drying time.

### COVERAGE

1L (33.8 Fl. Oz.) of ready diluted solution will cover approx. 475 sq. ft. with one application.

## NOTE

By routinely applying hard waxes (carnauba and candellilla waxes), flooring is refreshed and its resistance to stains and wear is improved.

However, it is absolutely essential in the course of years to reapply the necessary oil ingredients in Polyx®-Oil to the floor. Only use very sparingly otherwise traffic marks may appear.

On especially high traffic areas, refinish the cleaned area with Osmo Polyx®-Oil.

## WARNING

Causes serious eye irritation. Wear eye protection / face protection. Wash thoroughly after handling. Observe the general safety regulations when handling chemicals.

If medical advice is needed, have product container or label at hand. Can make surfaces slippery. Use caution while walking on surfaces. **HANDLING AND STORAGE:** Unopened container may be stored for at least 24 months. Keep container closed when not in use. Do not reuse empty containers. Do not expose to frost during transport. **FIRST AID: IF INHALED:** Supply fresh air; consult doctor in case of complaints.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. In case of **SKIN CONTACT** wash with soap and water. **IF SWALLOWED:** get immediate medical attention or advice.

**KEEP OUT OF THE REACH OF CHILDREN.**

## WARNING

## DISPOSAL

Dispose of leftover product and completely emptied packaging according to local official guidelines. Only completely emptied cans can be recycled.
