

LIQUID WAX CLEANER

Cleans and refreshes in one step!

3029
Clear

3087 White
Transparent

PRODUCT DESCRIPTION

Clear or transparent wax-based care product for occasionally refreshing wood floors treated with Polyx®-Oil as well as oiled or waxed furniture and other wood surfaces in indoor areas. Through appropriate care, the natural hard waxes in the surface (carnauba and candelilla waxes) are regenerated. The flooring remains durable without forming a film.

RECOMMENDED USE

Osmo Liquid Wax Cleaner is ideal for removing tough stains, e.g. grease or shoe polish, and best suited for refreshing all surfaces treated with Osmo Polyx®-Oil.

INGREDIENTS

Based on natural vegetable waxes (carnauba wax, candelilla wax), paraffin, aliphatic hydrocarbons (> 30%).
VOC content: < 750 g/liter, aliphatic hydrocarbons.

TECHNICAL DATA

Specific gravity: 0.77-0.8 g/cm³
Viscosity: > 30s DIN EN ISO 2431/3 mm, viscid
Odor: faint/mild, odorless after drying
Flash point: > 60°C acc. DIN EN ISO 2719

STORAGE

Up to 5 years and longer if container is kept dry and closed tightly. If thickened by frost, store for 24-36 hours at room temperature before use.

PREPARATION

Wood surface must be dust-free and dry. To do this, normally a dust mop, a mop or a vacuum cleaner is suitable. For easy cleaning and maintenance, Osmo Cleaning Kit for Floors (Dust-Mop, Micro-Mop Plush and an Active Fibre Cloth) is highly recommended. To clean high-traffic and dirty floors, for example public interiors, use Osmo Micro-Mop (with a mixture of Osmo Wash and Care and water) and afterward buff dry.

DIRECTIONS FOR USE

Shake before use. Do not dilute.

Manual application: For removing stains and intensive maintenance, use Osmo Liquid Wax Cleaner with our Active Fibre Cloth (approx. 2 teaspoons per 10 ft²). Remove especially tough stains with Osmo Liquid Wax Cleaner with a cloth or a Scotchpad.

Machine application: Apply Osmo Liquid Wax Cleaner with a single disc machine and a white pad (approx. 2 teaspoons per 10 ft²).

Spread Liquid Wax Cleaner on the surface evenly and buff into flooring. If streaks appear, either turn pad over or use a new pad. To achieve a higher gloss level, polish the dry surface with a white pad.

CLEANING OF TOOLS

Clean working tools with Osmo Brush Cleaner (Benzene-free).

DRYING TIME

approx. 30-40 minutes (normal climatic conditions, 73 °F / 50 % rel. humidity). Lower temperatures and / or high humidity can increase the drying time.

COVERAGE

Product coverage of Osmo Liquid Wax Cleaner strongly depends on the absorption and on the level of contamination on the substrate.

1 Liter will cover approx. 860-1076 ft² (2 teaspoons for approx. 10 ft²) with one application.

NOTE

By routinely applying hard waxes (carnauba and candellilla waxes), flooring is refreshed and its stains and wear-resistance is improved.

However, this does not reduce or replace the need to re-oil the floor as necessary with Polyx-Oil®.

Only use very sparingly otherwise traffic marks may appear.

Use Osmo Liquid Wax Cleaner White only on white substrates.

On especially high traffic areas, refinish the cleaned area with Osmo Polyx®-Oil.

WARNING

WARNING! Combustible liquid. Keep away from flames and hot surfaces. – No smoking. Use only outdoors or in a well-ventilated area. Repeated exposure may cause skin dryness or cracking. Do not get in eyes, on skin, or on clothing. If medical advice is needed, have product container or label at hand. **IN CASE OF FIRE:** Use for extinction: CO₂, powder or water spray. Store in a well-ventilated place. Keep cool. Dispose of contents/container in accordance with national regulations. **KEEP OUT OF THE REACH OF CHILDREN.**

DISPOSAL

Dispose of leftover product and completely emptied packaging according to local official guidelines. Only completely emptied cans can be recycled.
