DE / 020 / 293

### PRODUCT DESCRIPTION

Water-soluble cleaning concentrate for everyday cleaning and care – especially developed for oiled and waxed wood floors. It contains soaps based on natural oils.

The wood is cleaned gently and not stripped of its protective coating. When used regularly, highly effective Wash and Care produces a low-maintenance, slip-resistant surface.

The water-soluble ingredients prevent streaking and are not film-building. Mild to skin, free of dyes and aromas, biodegradable, free of solvents and fumes, so it supports a healthy living environment.

### RECOMMENDED USE

Osmo Wash and Care is especially suitable for the cleaning and care of oiled and waxed wood floors. Also recommended for furniture, doors, wall and ceiling paneling.

### INGREDIENTS

Based on natural vegetable oils; 5-15% plant soaps (anionic tensides); < 5% non-ionic tensides; care components, suspending agent. Detailed declaration of ingredients available upon request.

### TECHNICAL DATA

Specific gravity: 1.01-1.03 g/cm<sup>3</sup>  
Odor: faint/mild, after drying odorless  
pH value at 20°C: 10.9

### STORAGE

Up to 5 years and longer if container is kept dry, closed tightly and stored at temperatures between 41 and 95 °F. Do not expose to frost during transport!

### SURFACE PREPARATION

To remove loose debris, we recommend using Osmo Dust-Mop, a conventional vacuum cleaner or broom.

### DIRECTIONS FOR USE

Manual: Wash and Care is ideally used with Osmo Micro-Mop Plush.

Add Osmo Wash and Care to water. Clean the floor with a damp (not wet) mop and wipe dry immediately. When applied regularly, the surface becomes resistant to dirt and signs of wear.

Machine: Spread the diluted Wash and Care solution with a pump sprayer. Loosen dirt with a single disc machine, e.g. Osmo FloorXcenter, and a white pad. Immediately, mop away or remove with a round Osmo Microfibre Pad for machines.

### COVERAGE

1 capful of Wash and Care per 0.5 gal (2 liters) of water. For higher levels of soiling or for mechanical applications, dosage can be increased up to a mixing ratio of 1:1.

Proper dosage saves costs and minimizes environmental impacts. Only a small quantity of the product is needed compared to normal (i.e. diluted) products. Do not mix different cleaners.

## NOTE

For the removal of particularly tough stains and intensive refreshing of waxed or oiled floors, we recommend our renowned Osmo Liquid Wax Cleaner, which is based on natural vegetable oils and waxes (undiluted application with Osmo Active Fibre Cloth).

For a complete renovation, we recommend an Osmo Polyx®-Oil.

For use with Osmo FloorXcenter: The white pad loosens common household contamination, the brush ring removes tough deposits even in pores, and the red pad removes especially tough stains.

(Re-oiling is recommended.)

After the dirt is loosened, remove it with the Microfibre Pad. Repeat process until the complete area is clean. Detailed information can be found in the product information sheet for FloorXcenter.

Strong machine applications (e.g. single disk machine with a red pad) also remove the soluble wax and oil layer. After drying, one coat of an Osmo Polyx®-Oil must be applied thinly to flooring.

## CAUTION

Keep out of reach of children. If medical advice is needed, have product container or label at hand.

## DISPOSAL

Dispose of leftover product and completely emptied packaging according to local official guidelines.

Only completely emptied cans can be recycled.
