

Packing Ticket Guide

How to read your packing ticket

When your order arrives, the codes on the boxes will not be the same as what you ordered. But don't worry, you still got the right order. Some of the closet modules are too large to fit into one box so they come in multiple boxes.

Example:

The Vista Collection Shelf tower includes three parts:

1. Tower side panels
2. Tower shelving (fixed shelves)
3. Tower adjustable shelves

You will **not** get a box that says "Vista Collection Shelf Tower". You **will** get three separate boxes with the three separate parts.

IMPORTANT: The hardware for the large towers come in the Tower Shelving Kit (CFW-TS)"

When your order arrives, you'll see the closet modules on the packing slip, in bold. Below the name of each module, you'll find a list of the different boxes that make up that module. (illustration below):

WFB-TW19.5 (Group)	The bold is	Vista Collection Shelf Tower 19.5" Wide - White (Group)
2 CFW-TWSP	what you	Tower Side Panels Kit White
2 CFW-TS19.5	ordered.	
	Below it are	Tower Shelving For - 19.5" Unit - White
2 CFW-AS19.5-2	the individual boxes.	Adjustable Shelf - 2 Pack - For 19.5" Unit - White

If you ordered two modules, it's likely you'll get more than one of the same boxes. This is because the same parts are often used in different modules. For example, if you have two towers of the same height, they will both have the same side panels. (Illustration below):

2	WFB-TW19.5 (Group)	Vista Collection Shelf Tower 19.5" Wide - White (Group)
	2 CFW-TWSP	Tower Side Panels Kit White
	2 CFW-TS19.5	Tower Shelving For - 19.5" Unit - White
	2 CFW-AS19.5-2	Adjustable Shelf - 2 Pack - For 19.5" Unit - White
2	WFB-TWDR4-31.5-SH (Group)	Vista Collection 4 Drawer Shelf Tower 31.5" Wide - White - Shaker (Group)
	2 CFW-TS31.5	Tower Shelving For - 31.5" Unit - White
	4 CFW-DR31.5-SH	Shaker Drawer Kit For - 31.5" Unit - White
	2 CFW-TWSP	Tower Side Panels Kit White

When your order arrives, separate the boxes according to each module. This way you'll ensure you have all the parts for each particular module.
