Since its official release in Germany in 2007, Slim Belly has helped nearly 1 million users lose belly fat with its scientifically proven technology and its award-winning reputation as one of the most effective exercise tools in today's market. Molly Napolitano, President of Slim Belly System North America believes the only way to break the trend of 'quick fix' gimmicks is to deliver a premium exercise product that not only gets results, but motivates people to exercise. Slim Belly delivers on her philosophy that small changes made within our daily lives will result in big differences.

Seven years later, we are proud to offer this effective exercise tool to North America. After using Slim Belly for 4 weeks, people get results. This, for many people, is a real life changer. When the inches start coming off, there is a shift in behaviors that include healthier food choices and increased motivation to exercise.

## SLIM BELLY

Europe's best kept fitness secret

Slim Belly is a **premium designed exercise belt** that has been revolutionizing workouts for over 950,000 men and women. It is scientifically proven to help you trim your waistline, target hard-to-lose inches and burn up to 8x more fat.

## AWARD-WINNING

breaking the mold of traditional exercise

For **5 years in a row**, Slim Belly has won the prestigious Bodyife Award as one of the most effective exercise concepts available today!

Breaking the mold of traditional exercise since 2007

# PRODUCT - Slim Belly System

Slim Belly is a **premium designed slimming device** that has been targeting hard-to-lose fat with its custom dual-channel belt designed with hypoallergenic material.

The System uses *Airpressure Bodyforming Technology*, a patented technology that **gently massages stubborn fat layers** in the midsection during cardio exercise. The combination of Slim Belly and cardio exercise causes an **incredible reaction within the body**.

**Cardio exercise plus the 'massaging' action of the belt targets fat layers** by increasing circulation, heating up 'cold/problem zones' thus, making the fat available as fuel for the body to burn.

**Slim Belly is offered as a complete set and comes in 2 different sizes to properly fit a variety of body shapes.** Each set comes with the pneumatic unit, neoprene pack, dual-channel belt, connector hoses, a charger, and instruction manual.

# THE SCIENCE BEHIND IT ALL

In a recent study from **The Austrian Institute for Sports Medicine & Science (IMSB)**, subjects using Slim Belly lost significantly more fat around their waists than those doing the exact same cardio exercise without Slim Belly.

## In fact, users on average:

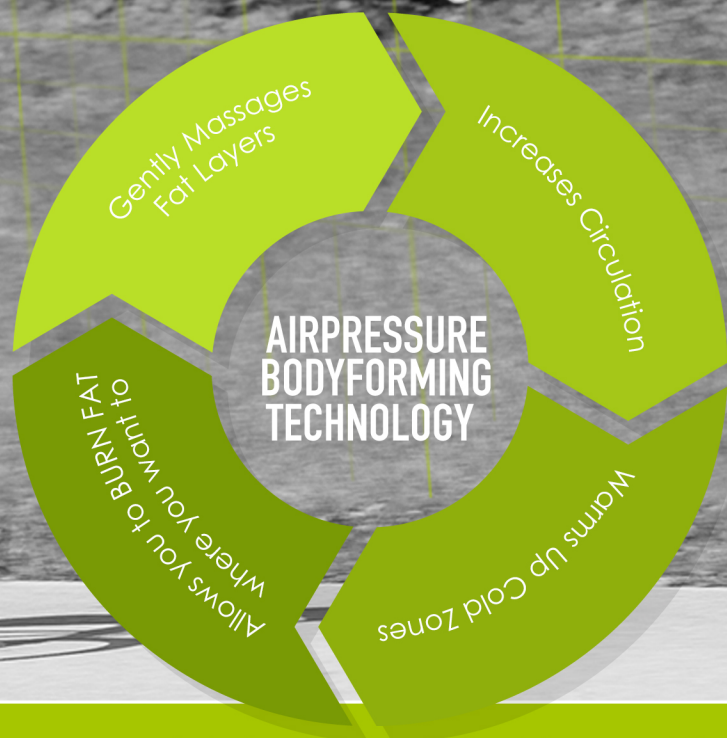

- Lose 1-2 pant sizes in about 4 weeks\*
- Notice improved skin tone and tighter skin, and
- See a visible reduction in stretch marks

*\* Individual results will vary*

## PATENTED TECHNOLOGY

spot reduction has been discovered

Austrian engineers discovered the secret to targeted fat loss by studying the principles of massage. They developed a patented technology, *Airpressure Bodyforming Technology*, that uses air compression to gently massage stubborn fat layers in the midsection during cardio exercise. This increases the blood flow to your fat cells, allowing them to be burned as fuel for maximum inch loss.

# TECHNICAL SPECS

## SLIM BELLY SYSTEM SETS

Our Slim Belly System Sets are offered in 2 different sizes 1M (24 - 36 inch waist) and 2L (34 - 52 inch waists) and comes with everything you need to get started; Pneumatic Unit, Neoprene Pack, Slim Belly Replacement Belt and Charger.

### PNEUMATIC UNIT

The MASSAGE Unit

The Pneumatic Unit is used to pump air in and out of the massage belt. This provides the massage effect that stimulates increased blood flow.

**Power Supply** - Each unit uses a charger that is included with either a set or a replacement unit.

**Battery Duration** - Last 7-8 hours when fully charged.

**Charging Time** - Approximately 8 hours if the battery is completely empty.

**Beeps** - Every time you switch on the unit, a 'Beep' sound is emitted to let you know how full the battery is at all times.

- 1 Beep** – Charged and ready for use.
- 2 Beeps** – Charge is weak.
- 3 Beeps** – Battery is empty and needs recharged.

**Silicone Hoses** - Each unit comes with a set of long hoses that attach the pneumatic unit to the belt.

**Weight** - 5.5 lbs

**Charger Voltage** - AC 100-240V 50/60Hz

### NEOPRENE PACK

The HOLDER Pack

The Neoprene Pack is specially designed pack to hold the pneumatic unit for maximum 'workout' freedom.

**Material** - 80% Neoprene, 17% Polyester, 3% Nylon

**Wash** - Hand wash with lukewarm water.

**Weight** - 8.5 oz

### SLIM BELLY BELT

The DUAL-CHANNEL Belt

The Slim Belly Belt was designed with the use of hypo-allergenic material and interlocking layers to create a dual-channel effect, for better flexibility and massage.

**Material** - 75% Thermoplastic Polyurethane

**Brass Valves** - Attached to the front of the belt.

**Weight** - 9.5 oz

### CHARGER

The POWER Adapter

**LED lights** - A **red** LED will appear on the charger once it is plugged in, as well as when the unit is being charged. It will turn **green** when the unit is fully charged.

**Charger** - AC/DC Adapter

**Input** - AC100-240V 50/60Hz

**Output:** DC7.3V/Indoor Use Only

# HEALTHY ALTERNATIVE

to liposuction and treatments
