DIGITAL LABELING SOLUTIONS

SUITABLE FOR
A WIDE VARIETY
OF PRINTING
TECHNOLOGIES

We are the leading labeling solutions
and sticker manufacturer in Thailand.

With our over 45 years of experience, we produce high quality products at reasonable prices. We are able to gain the trust of customers both domestically and internationally around the world with continuous quality management.

Thai KK offers a wide variety of digital labelling solutions at exceptional speed, high flexibility for volume, and customization. Digital printing has opened the doors for more customer-centric business models to take-off - by making it easier to provide personalized printing, specialty enhancements and technology-enabled packaging solutions to help brands differentiate themselves.

Our digital product portfolio is suitable for a wide variety of printing technologies - from Konica Minolta, HP, Ricoh, Canon, Fujifilm, Epson, etc. The portfolio includes product from Paper, PP, PET labels (glossy, matte, transparent, pearlized, etc). **One of our newest development includes Gold, Silver, Hologram Stickers which can be used in removable and high tack applications (such as hotmelt applications).**

Application areas:

- Print on Demand
- UV inkjet, water-based inkjet, dry toner, liquid toner, etc.
- Mass customization

Key Features:

- High printing quality, at Low MOQ
- High performance with competitive cost benefits
- Variety of adhesives for customized applications
- Support for all different printing technologies and brands

Our products by product groups

● DIGITAL TONER LABEL

Hybrid stickers for dry printers and liquid toner. Premium grade stickers The solution for printing labels on digital printers. The surface is coated with a high quality liquid that can be printed and adheres to the toner well with both Dry Toner printers and Liquid Toner printers, providing high quality, beautiful label printing, adding value to the product.

● INKJET WATER-BASE LABEL

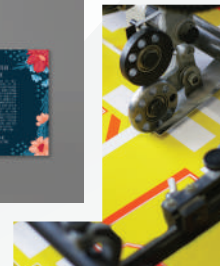

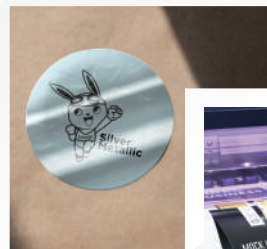

Sticker for Inkjet Printers Ink and Pigments. The surface of the sticker comes with a coating that has good ink absorbency. And dry quickly, suitable for inkjet printers used in general offices. including Inkjet dye/pigment system printer.
