## ABOUT THAI KK

Our Mission is to deliver a **WOW** product & customer experience by creating walking innovations, sustainable, lifestyle products that fits your everyday needs. Thai KK Group focuses on proactive approach to product high-quality products, with global certifications, to serve the global demands in all industries.

Thai KK Industry Company Limited - with **40 years** of experience in manufacturing high-quality adhesive tapes, we are able to innovate new products that fits all types of applications.

**1978**

Thai KK Industry Co., Ltd. was established in 1978. It originally started to operate in the domestic market. With the adoption of conglomerate strategies and new market shares from export sales, Thai KK has transformed to a multinational company in recent times.

**2012**

Thai KK is a market leader in **Label Industry, Adhesive Tapes, Melamine and Urea moulding compounds**. The plant is situated on 60 rai of land (88,000 M2), with about 500 employees in year 2015.

**2019**

Thai KK is a **market leader** in Label Industry, Adhesive Tapes, Melamine and Urea Moulding compounds.

# TECHNOLOGY OVERVIEW

## MACHINE

was established in 1978. It originally transformed to a multinational company in recent times.

## ADHESIVE

**Emulsion/Solvent/Hotmelt**  
We can formulate various pressure sensitive adhesive technologies that enable converters and end-users to easily meet those customer demands.

## AROMATIC SOLVENT RECOVERY

Our systems use the process of distillation which separates volatile and nonvolatile solutions in solvent adhesive.

## SEMI-AUTOMATIC SLITTING

To convert and package the widest possible range of materials of any single machine available on the market today.

# QUALITY OVERVIEW & SYSTEMS

## ISO 9001:2015

International quality assurance system assures its products and services are at a high quality standard for our customers.

## RoHS

**Restrictions of Hazardous Substances**, The original RoHS, restricts the use of ten hazardous materials found in electrical and all tape products.

มอก.386-2531

## TIS STANDARDS

มอก. 386-2531

Certified pressure-sensitive adhesive tapes for electrical purposes, operating temperature between **0 to 80 degree celcius.**

## UL CERTIFICATIONS

At Thai KK, we offer a complete product range for UL certified adhesive tapes. Our adhesive tapes have high technical and quality performances for electrical Insulation safety.

# What does micron mean in tape?

## How is it related to the packing tape's business?

Each type of adhesive tape, including OPP tape is related to "micron," which tells us the thickness and the application that it is suitable for **Tape's thickness is usually measured in microns or "µm,"** and there are sometime two measurements of thickness - both of the adhesive and the backing. The adhesive thickness will give you an idea, based on the quality and tack of the adhesive, of how much adhesion force the tape will exert on the box. Below are the weight and applications in which our tape is suitable for.

# MICRON FOR OPP TAPE

## Maximum weight

### KK Pink

#### TAPE OPP 36 micron

can hold **up to 1 kg** (for application such as envelope sealing purposes).

### KK Red

#### TAPE OPP 38 micron

this is a standard grade for OPP tape and can be used for carton sealing boxes **from 1–3 kgs** (for applications such as face mask delivery boxes, shoe boxes, courier envelopes).

### KK Blue

#### TAPE OPP 40 micron

can be used for carton sealing boxes **from 3–5 kgs** (for applications such as cups and bakery boxes).

### KK Violet

#### TAPE OPP 43 micron

can be used for carton sealing boxes **from 5–8 kgs** (for applications such as cartons for plants, electronics, or other small electronic parts).

### KK Orange

#### TAPE OPP 45 micron

this is a preferred grade of OPP tape and can be used for carton sealing boxes **from 5–10 kgs** (for applications such as fruit delivery boxes, vitamin and supplements delivery boxes).

### KK Gray
