

# Desk Clamps

These Desk Clamps are a simple solution to setting up anti virus acrylic screen protectors in a working environment. They are designed to secure the screens to desks and counters, which act as a protective shield to help reduce the transmission of viruses and germs, helping to protect staff and customers.

## Assembly Instructions for Desk Clamps

### Assembly

Mount to the edge of the desk

\*Note: for desktops with thickness of 25mm or less Only

1. Push the two brackets over the edge where the screen is to be mounted, as shown in Fig. B1 below

**Fig. B1**

2. Tighten both brackets from underneath with the supplied bolts,
3. Insert the privacy screen into the mounting brackets, loosen "Bolt #1" shown in Fig. B1 above if necessary,
4. Tighten the "Bolt #1" to firmly grip the screen.
