

Forbo Nairn Bulletin Noticeboards

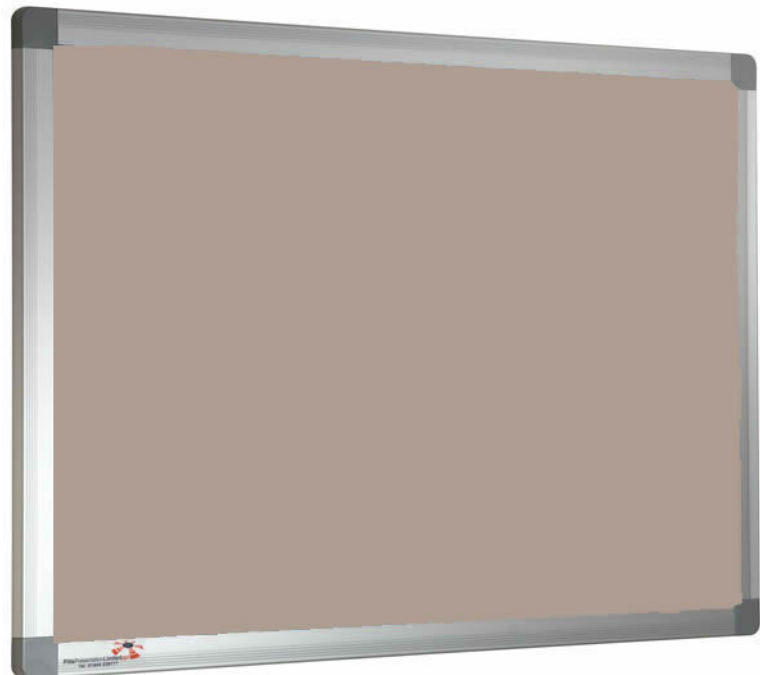

Forbo Nairn Bulletin noticeboards are manufactured in our UK factory.

They are the ultimate in pinboards guaranteed to last a lifetime.

- Linoleum finishing material produced from 91% natural raw materials and contains 43% recycled content
- A combination of oxidised linseed oil, rosin and finely ground cork gives the product its flexibility and resilience
- Material is antistatic and bacteriostatic so it is hygienic and clean
- Pinhole recovery/wipe clean with damp cloth or Ph neutral solution
- The board material retains its grip and doesn't crumble like traditional soft boards as the pinholes close after extraction of the pins due to the flexibility that characterises the material
- overall thickness 9mm unframed
- Available in 15 colours
- Choice of Aluminium frame, Hardwood frame (Ash, Beech, Oak and Sapele) and Unframed

Sizes:

PFN0906A	900x600mm	4kg
PFN1209A	1200x900mm	9kg
PFN1212A	1200x1200mm	12kg
PFN1512A	1500x1200mm	14.5kg
PFN1812A	1800x1200mm	17kg
PFN2412A	2400x1200mm	23kg

Care and Maintenance

Bulletin Board is ready for immediate use. Any adhesive residue should be removed as quickly as possible with a clean, damp cloth. Dried adhesive residue should be removed with a clean cloth and white mineral spirits. Always clean off mineral spirits residue with a damp clean cloth.

After wiping off residual glue, there might appear slight “wiping stripes”. This can be corrected easily. Clean the wall of all dust. Prepare Forbo Polish by using one part cold water and one part Forbo Polish fluid. Apply on full wall area using a wax distributor (edges with a small applicator). Leave the surface to dry. Stripes will have disappeared.

Regular Maintenance

Regular dusting or, if necessary, wiping with a damp cloth guarantees a long useful Bulletin Board life. Bulletin Board’s linoleum surface provides for a washable finish to retain original appearance. The surface can be wiped or washed using a neutral pH cleaner, pH ranging from 6 – 8. Rinse with clear water after cleaning.

Note: Bulletin Board does not normally need a special maintenance product.

Chemical Resistance

Bulletin Board is resistant to all kinds of chemicals, with the exception of high alkalis.

We offer our noticeboards in a range of different fabrics and finishes: Pitts Polyclour FR, Camira Cara, Camira Lucia, Charles Twite, Corded Hessian, Cork, Premier Felt, Galaxy Screen and Sundeala.

Disclaimer: The above cleaning/maintenance recommendations have been derived from years of practical experience and should be regarded as helpful guidelines only.
