

# CAMBRIDGE-YEREVAN SISTER CITY ASSOCIATION

Presents a Panel Discussion in conjunction with the Cambridge Science Festival

\*

## *3D Printing: The Wave of the Future*

*Learn all about the exciting world of 3D printing! Since its inception, 3D printing has been innovative in manufacturing industries and recently in the biomedical field. Hear about progress being made both in the USA and Armenia.*

**Thursday, April 19, 2018 7:00PM**

### Panelists

**HRAYR AZIZBEKYAN:** Scientific Associate, Institute for Physical Research. Leading expert in 3D printing in Yerevan, Armenia

**AJ PEREZ:** General Manager, NVBOTS

**JENNIFER MILNE:** Product Manager, Formlabs

**CHRIS TEMPLEMAN:** Program Manager, Microsoft Garage Makerspace (NERD)

**ADAM GREEN:** Operations Manager, Einstein's Workshop

**JACK KEVERIAN:** 3D printing visionary, Professor Emeritus, Drexel University

**BERGE AYVAZIAN:** Moderator; Senior Industry Analyst/Consultant, Wireless 20/20

Experts in Armenia believe that 3D printing is competitive in manufacturing and useful in education, science and engineering. In Cambridge, 3D printing has already become an integral process across the city and further efforts are being explored to increase its impact.

Co-sponsored by the National Association for Armenian Studies and Research (NAASR)

Armenian Cultural Foundation  
441 Mystic Street, Arlington, MA

Free and open to the public, ample parking, accessible by MBTA Bus 350.  
Refreshments to follow.
