Word Matrices

Word Matrices are a word study tool used to help students understand how different words are built from the same base. Included in this download are a basic word matrix and a word matrix castle. Both images can be used to build any word matrix.

For more information about word matrices and word study, check out our online educator training class, *Laying a Path: Word Study* and the *Word Study Packet*, available in the Shop at www.rootedinlanguage.com.

At Rooted in Language we believe in our products and ideas. Each product is refined through our work with children of varying ages and abilities. However, we recognize that teaching styles differ and that children are individuals with complicated needs. Consequently, Rooted in Language offers no explicit or implied guarantee or warranty for your children's learning outcomes.
