Statement of Non-GMO Popcorn Status

American Pop Corn Company certifies that it uses only certified Non-Genetically Modified popcorn seed throughout its growing and hybrid nursery operations; in fact, no genetically modified popcorn is commercially available, either domestically or internationally.

It is also a matter of scientific record that dent corn cannot pollinate a popcorn plant, preventing genetic integration of modified DNA into popcorn.

In order to assure our customers of this status and as a means of continuing validation, American Pop Corn Company routinely tests its crop for a variety of standard genetic markers. Please see the latest crop test certificate, which accompanies this cover letter.

American Pop Corn Company joins others throughout the popcorn industry in being a member of the Popcorn Board, a non-profit organization that represents the popcorn industry in the United States; the members of this organization are comprised of seed producers, growers, manufacturers and suppliers, who all stand together in their support for maintaining the Non-Genetically Modified status of popcorn.

For any additional inquiry, please contact a company official.

A handwritten signature in black ink that reads "Michael Carr".

VERIFICATION OF 'nonGMO'

July 14, 2011

Date

32(28) 59

Verification Number

This document verifies that a representative sample of the following commodity or product was determined by Biogenetic Services, Inc. to be a 'nonGMO' sample.

Commodity/Product

Sample Number

Yellow Pop Corn

SC-19-1173

Buyer (Company): _____

Seller: American Pop Corn Company

Date: _____

This documentation is valid only for the specified sample or commodity indicated above and officially verifies samples of commodities or products when the BGS Seal is affixed. The designation 'nonGMO' indicates that GMO was not detected at the 0.2% level of detection using the DNA/PCR quantification method. Any questions regarding the verification of the sample as 'non GMO' should be directed to BGS. This verification is valid only if the BGS Seal is contained hereon.
