## **Certificate of Analysis**

Page 1 of 2

POPv1

Client: Frisson Media Limited
Contact: Frisson Media Limited

10/3 Tironui Station Road West

Takanini 2112

Lab No:
Date Received:

20-Jul-2024

3632088

Date Reported:

26-Jul-2024

Quote No: Order No:

**Client Reference:** 

Submitted By: Frisson Media Limited

Sample Type: Nuts, Fruits and Vegetables and their Derived Products				
Sample Name:	Lion's Mane (LM)	Turkey Tail (TT)		
Lab Number:	3632088.1	3632088.2		
Multiresidue Analysis 2 - Type C Samples*				
Analytes Detected:	None	None		

Please refer to the detection limits table for the list of analytes screened and their detection limits.

## **Summary of Methods**

The following table(s) gives a brief description of the methods used to conduct the analyses for this job. The detection limits given below are those attainable in a relatively simple matrix. Detection limits may be higher for individual samples should insufficient sample be available, or if the matrix requires that dilutions be performed during analysis. A detection limit range indicates the lowest and highest detection limits in the associated suite of analytes. A full listing of compounds and detection limits are available from the laboratory upon request. Unless otherwise indicated, analyses were performed at Hill Labs. 28 Duke Street, Frankton, Hamilton 3204.

Sample Type: Nuts, Fruits and Vegetables and their Derived Products				
Test	Method Description	Default Detection Limit	Sample No	
Multiresidue Analysis 2 - Type C Samples*	Solvent extraction, SPE cleanup, dilution. Analysis by LC-MS/MS. In-house (using a Citrate buffered QuEChERS extraction).	0.010 - 0.3 mg/kg	1-2	

These samples were collected by yourselves (or your agent) and analysed as received at the laboratory.

Testing was completed on 26-Jul-2024. For completion dates of individual analyses please contact the laboratory.

Samples are held at the laboratory after reporting for a length of time based on the stability of the samples and analytes being tested (considering any preservation used), and the storage space available. Once the storage period is completed, the samples are discarded unless otherwise agreed with the customer. Extended storage times may incur additional charges.

This certificate of analysis must not be reproduced, except in full, without the written consent of the signatory.

Shaun Clay BSc

Senior Technologist - Food and Bioanalytical
