

POWERBLOCK

PRICE LIST **RETAIL**

POWERBLOCK®

The innovative design of the PowerBlock dumbbells makes exercising so much more fun and easier for the fitness freak and home athlete. The PowerBlock concept is simply fantastic in its simplicity.

The weights of these PowerBlock dumbbells fit together like a nest of dishes in your china cabinet. That is why they take up so little space. Which is not only useful while sporting, but also practical to efficiently organize the gym room.

The PowerBlock consists of a number of weight elements each with a heavier mass, that fit together and are clicked together with a sturdy pin system. This pin is attached with a strong elastic to the middle part of the nest of weights. Several elements can be combined to the desired weight and with the double pins these weights are attached to the handle. The only thing you have to do is to lift the chosen weight with the handgrip and start your exercises.

	NOT EXPANDABLE		<h2>SPORT 24 SET</h2>

The PowerBlock dumbbells are available in two versions of the same excellent quality:

The Sport series for home use and the Pro series for professional use. The grey Sport series are the more robust version; the somewhat more expensive black Pro series have a sleek designer look and color-coded weight display.

Both versions have ergonomic handles and weight plates with a durable and shock-resistant urethane coating. And important: the PowerBlock's are always sold per pair, so the prices quoted always apply per pair.

The PowerBlock weights are available in non-modular and modular options. The non-modular PowerBlock sets cannot be expanded with additional weights.

The modular PowerBlock sets can be expanded with additional weights.

NOT EXPANDABLE		PRO 32 SET
		<p>ITEM#: PBPR032</p> <p>Net weight: 30 kg</p> <p>Dimensions: 12"L x 5.75"W x 5.5"H</p> <p>UPC: 181381000800</p> <p>Usage: Professional use</p> <ul style="list-style-type: none"> • The Pro 32 Set replaces 8 pairs of dumbbells or 136 kg of free weights in 1.8 kg increments. • Weight range per hand: 1.8 to 14.5 kg • Increments per hand: 1.8, 3.6, 5.4, 7.2, 9, 10.9, 12.7 and 14.5 kg • Sold per pair • Not expandable <p style="text-align: right; color: #f00;">€ 475.00</p>

PowerBlock offers all the products and accessories needed to complete the perfect home gym.

Enjoy traditional strength training, High Intensity Interval Training (HIIT), and more with the same dumbbell used by professional athletes.

Experience the best of functional training using our Adjustable Kettlebell and do more with the Pro Series accessories that turn your dumbbells into kettlebells or olympic bars.

A multi-angle SportBench can be upgraded with a dip station or chin-up bar that plugs into the bench for a better total body workout.

HOW DO THE POWERBLOCKS WORK?

PowerBlocks are a type of selectorized dumbbell system that works similarly to the weight stacks you'll find on a standard weight machine at the gym.

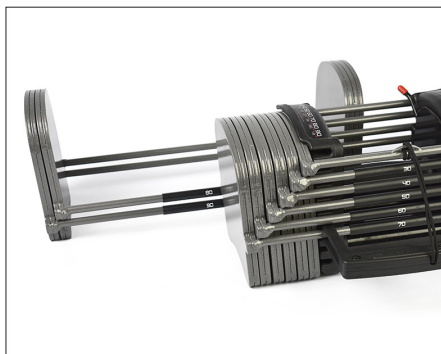

Choose the colour or number of your desired weight.

To select your desired weight, you simply move a selector pin to a colour-coded block or number representing the weight you want.

You then reach into the "core" of the unit to grasp the handle and lift the dumbbell, along with all the weight plates above the selector pin. When you're finished, you simply place the block back on top of the unused weights.
