SFID325 Adjustable Bench

Body-Solid's Pro Clubline SFID325 Adjustable Bench is designed to meet any facility's requirements without breaking the bank. Utility benches are a critical part of any commercial or vertical market facility. The Pro Clubline SFID325 Adjustable Bench adjusts from decline (-18°) to flat to 5 incline positions, (15°, 30°, 45°, 60° and 80°), with the back pad and seat pad adjusting separately. The SFID325 Adjustable Bench has a tested weight capacity of over 1000 pounds with its commercial grade 2"x3" 11-gauge steel. Thick durable upholstery holds up in any use and won't bottom out. Oversized wheels with a front transport handle make the SFID325 Adjustable Bench easy to move. The perfect match for dumbbell workouts, smith machines, squat racks and power racks.

Weight: 72 lbs.

Dimensions: 57.5"L x 25.5"W x 18"H
