**SOLE FITNESS APP
CONNECTIVITY**

SOLE FITNESS APP

The SOLE FITNESS APP is designed to monitor and record your workout data with all SOLE FITNESS equipment which now includes an integrated Bluetooth 4.0 module that is compatible with most iOS and Android mobile devices. Simply download the SOLE FITNESS APP, set up an account, pair with your SOLE FITNESS equipment, then you are ready to track your workout schedule, design your workout plan and set your training program. All the personal profile and exercise data will be stored on your mobile device. You can now view your workout profile on your mobile device during your workout. Or you can watch a movie, news, check your email while the SOLE FITNESS APP continues to record your exercise data in the background. The SOLE FITNESS APP also communicates with Fitbit, iHealth, Mapmyfitness and other open-source training apps so you can continue using the apps that you are familiar with and keep all your workout history in one safe place.

3 display modes: Simple / Track / Dashboard

Supports 4 languages: Traditional Chinese / Simplified Chinese / English / French

DATA TRANSFER

Sole now provides users the freedom to transfer workout data via Bluetooth from their smart devices to SOLE fitness equipment. Users can have their fitness data transferred from most of the available fitness apps to track their training information and progress.

MUSIC

In addition to data transfer, SOLE also offers Bluetooth speakers on the equipment. Now you can listen hands-free to all your favorite playlists during working out.
