

Blacksmith Collection

oak curtain pole wrought iron fittings dimensions

All measurements are approximate as all items are hand made

*the sleeve slides over pole by 2.5cm. You provide the measurement between the finials and we add 2.5cm to the pole length for each finial.

**bracket projection = distance from the wall to the centre of the pole

***eye drop = top of pole to bottom of eye (where the curtain hook hangs)

Item	Height	Width
